Bug Rob Roy from Boston

As an antidote to the cares of life and a sovereign sovereign opiate for the miseries of thought and reflection there is no medicine which has acquired a greater reputation to a good bottle of wine. Our owners were so generous as to put on board a half pipe for stores but it is unfortunately stowed in the hold where it cannot be got unless we get to the Islands but to disappointments of this nature there is no remedy but patience and this is

The Jew
Capt. Sumner . 1. do
Boston

The Lost Ship

Her mighty sails the breeze swell,
And fast she leaves the leaping land
And from that shore the last farewell
Is waved from many a snowy lance,
And weeping eyes are on the main
Untill its verge it wanders o'er,
But, from the hour of parting, pain
That back was never healed of more
In her was many a mother's joy,
And love of many a weeping fair;
For, was wafted in its sigh
The lonely heart's unceasing prayer
And all the thousand hopes untold
Of ardent youth, that vessel bore,
Lay, were they quenched in waters cold
For she was never healed of more!

When on her wide & trackless path
Of dissolution doom'd to flee
Lay, sank she midst the bleeding wrath
Of racking clouds & rolling sea?
Or when the land but mocks the eye
Went drifting on a fatal shore?
Vain gapes all - her destiny
Is dark - she never was healed of more
The moon hath twice times changed her form
From glowing orb to crescent wan
Mid skies of calm & cope of storm
Since from her port that ship hath gone
But ocean keeps her secret well
And though we know that all is o'er
No eye hath seen - no tongue can tell
Her fate - she never was healed of more
Oh were her tale of sorrow known
To some something to the broken heart
The fangs of doubt would then be gone
And fangs & endless dreams depart

Come pledge me once more ere we part
For who knows how long it may be
Ere remote from the world and its ills
I again drink a bumper to thee

Then hies to the friendship which yet
Has known not the truth of decay
Success marks the bright hour we ^{met}
May it follow your journey away

128

SW Monsoon generally commences in the China Sea the middle or end of April and continues to the beginning or middle of October liable to a retardation of 12 or 15 days.

NE Monsoon sets in steady 1st November (equinox should be avoided) but it sets in with a gale generally; also with the setting in of the Monsoon in October.

Hobbsburgh India Directory

Capt. Croft of Brig Robt Roy says that a vessel sailing at the rate of 10 knots per hour against a current running at the same rate goes through the water.

The Brig Ann in her passage to the NW Coast in 1818 ^{about} run close on to breakers and land in Lat 49.29 ^{South} and Long 78 00W they bore from South to NE (down Coast NNE)

Grays Island (not on our Chart) is in Lat 26.22 S and Long 92.30 West (Bowditch)

The 23 of October 1821 abate the Falkland Islands from the Eastward bearing S. S. W. there run ^{West} past them distance about 20 miles the land appeared to be very barren & shrill and we could see no trees on them nor breakers. Between the two principal Islands there is a very large Rock (a little to the NE) which appears at a distance very much like a ship under full sail.

Capt Henry in the Brig Whyper 1821 went through the Straits of Lacharria kept the ^{Captains} ~~Master~~ tide aboard saw no dangers there do

The Light House

The scene was more beautiful far to my eye,
Than if day in her pride had array'd it
The land breeze blew mild and the azure arch: They
Look pure as the spirit that made it;

The murmur rose soft, as I silently gazed,
O'er the shadowy waves playfull motion
From the dim distant isle till the Light House fire blaz'd,
Like a star in the midst of the ocean.

No longer the joy of the sailors Boy's breast,
Was heard in the wildly breath'd numbers,
The sea bird had flown, to her wave girded nest,
The fisherman was sunk to his slumbers.

One moment I look from the hill's gentle slope
All hush'd was the billow's commotion
And thought that the light house look'd lovely as Hope
That star of life's temulous ocean.

The time is long past and the scene is afar
Yet when my head rests on my pillow
Will memory sometimes rekindle the star
That blaz'd on the breast of the billow.

In life's closing hour, when the trembling soul flies
And death stills the heart's last emotions;
O then may the seraph of mercy arise
Like a star on eternity's ocean

Father of light & life! thou Good Supreme
O teach me, what is good! teach me Thy self
Save me from folly, vanity, & vice,
From every low pursuit! and lead my soul
With knowledge conscious peace, & virtuous mure;
Inward substantial, never fading bliss

Thomson, Winter

Memory
When joys bright sun has shed his evening rays,

My Dream July 20th 1822 N.W. America

"I saw the glide, so airy light,
Adorn the many dance,
Thy waving tresses darkly bright,
Thy eyes, pure saintly glances,
That oh! I thought, but a gleam
Of Heaven shed o'er me in my dream.

I saw thy snowy neck and face
Tinged with the blush of youth;
The silken fringe, with modest grace
Overshadow thine eyes of truth;
And thought, that sure such modesty
Could only dwell with piety.

I saw the puring smile of love
Play lightly on thy lips;"

Come eastward consort ~~prayer~~ ~~as~~ ~~light~~ ~~like~~ ~~eyes~~ ~~looking~~ ~~longer~~ ~~long~~

"Whoever can make two ears of corn or two blades of grass grow upon a spot of ground where only one grew before deserves better of mankind and does more essential service to his country than the whole race of politicians put together." This may be true Doct Franklin; but the man that gave the Cornishwar Indians ^{potatoes} to plant, all things considered did his country no ~~good~~ essential service if he was an American.

"How sweetly ~~soft~~ over the morning of life,
How free from vexation & strife,
Kind nature presented rich scenes to my view,
And every scene she presented was new.
But now was the morning of life clouded o'er,
And its charming serenity lost
For now was I forc'd to abandon the shore
And on the ocean wide billows be tost."

" When foaming seem the billowy waves
To mingle with the sky,
When swift, as still the tempest raves
The vivid lightning fly;

Oh in that moment of despair
That hour of agony,
To thee my God I raise my prayer
Of thee I think of thee

Not that as peals the thunder loud
I thine thy presence find

Not that I see thee in the cloud
or hear thee in the wind

Not that as rages the avenging storm
I thine far & fast

I thine behold thy angry form
Thy spirit on the blast

Not that as swift from heaven descending
The forked lightning plays full

I see thy arm the concave sending
Dealing the deadly ball

But that a confidence I feel
A still small voice I hear

That says thy arm is o'er me still

That tells me thou art near"

"Thine was a glance for me that brightened
Thine was a blush for me that heightened
Thine was a voice whose melting tone
Whispered of love to me alone,

That

Thine of my soul this goblet is
Thine alone that pensive tear
Is not so sweet as woman's lip
But O! tis more sincere

Like her delusive beam
Smile steal away the mind

But like affliction's dream
Smile leave no sting behind

Come twine the wreath
my brow to crown

These flowers were cull'd at noon

like woman's love the rose will fade
but O! not half so soon

For though the flowers may fade

this fragrance is not lost

Only when once love's betrayed

the heart can bloom no more

(mod)

Sandwich Islands 1821
December 28th 1821

Begin with light breeze from N.E. all sail out
At 2 P.M. bent the Cable. ^{and light sails} At 5 P.M. took in the Rigging
the Island in sight.

At Midnight hove to at 2 More ship to the
S.E. Doughty made sail ~~to~~ the land bearing S.E.
At 10^{o'clock} was visited by a Canoe with a Chief and 4 men
with some potatoes bought them — A very nice 1/2 part 10
the breeze springing up we proceeded down the West
side of the Island ~~at the~~ Bay and hove to
opposite Loeigh after firing a gun and waiting
sometimes a Canoe with a Chief and his son came
off and told us that the King was at Moahoo
and all the Chiefs and that he was left to take
care of the place — he also said that two Brig and
one ship had passed here for Moahoo and their way on
Vessels of Parakakooa At 1 P.M. made sail for

the Island of Moahoo with light wind at day
light made the Island of Moahoo; at 3 the Pilot came on board
and took us into the Outer Harbour of Hannar povak anchored
and went on shore

~~It is~~ The Sandwich Islands are supposed to have been known
to the Spaniards some time before their discovery by Capt Cook as the
Indians have a tradition that of three white people landing on Owhyhee
from a vessel and their War Caps ^{and Cloaks} were taken from them and they resemble the
~~Spanish Caps exactly~~ Caps & Cloaks formerly worn by the Spaniards

Sunday Jan 27th 1822. Dined on Board the ^{Ship} Whyden Capt Prime,
with ~~other~~ respectable residents on the Island of Nukahoo and Rear
Admiral King of the Sandwich Islands with two of his wives together with
Mr Pitt prime minister to his majesty aforesaid. A great number of toasts
were drunk particularly by Pitt who toasted ^{each of} the company severally
and about thirty in number this together with drinking the toasts
given by the Company made him pretty drunk and his majesty was
in the same situation while the toasts were drinking the guns of
the Brig were firing incessantly the salute being returned by the
Cleopatra, Barge (the King's Vessel) and the Fort. The firing continued
all night (at intervals) from the Fort this was probably the separation
of friends — as he and the King were ^{last} entertained and at such
times like to make a noise. The ~~following~~ day following the King embarked
alone in a small schooner for Attou.

they enclose his body in a box and raise it on two of the
longest poles they can find and leave it exposed to the winds
his tribe have a tradition that all the world was once covered with water & that
a man his wife & children were all that were saved they say he built a large
ark and took all kinds of animals with him in it and at the expiration of
the month the water subsided and left him high & dry. the first vessel that came
here sold them a Iron pot for ten skins. Skins which broke the first time it was
put on the fire & Vancouver sold this a blanket for twenty skins which also
broke the first time they fired it. they say they knew that there was any intention
on the part except themselves was by a dead whale floating ashore with a
harpoon in him they are generally speaking very large a man that is the richest or
owns the most slaves is ^{considered} the greatest Chief

I am credibly informed and believe it to be fact that on the death of
a Chief some of his slaves are murdered ~~on the occasion~~ Capt Martin
of ship ~~Dummiton~~ some time since was on shore at the Riguer and as he
was about pulling off a female ^{slave} came to him and begged to be taken on
board the vessel as ^a Chief had died that day and she was about
to be murdered - he accordingly did - and they have sworn revenge and
will have it the first opportunity

at the birth of an infant ~~when~~ it is instantly plunged in the salt
water. I looked to a board head and feet - the bodies as well as
all the other are continually fighting and are diminishing very fast.

Cocklane, this tribe appears to be pretty much the same as the Riguer although
the language is different and I think their disposition ^{better} not so good. but when
you have one of their head Chiefs on board there is not much danger
sending a Boat a shore. this tribe are not so large as the Riguer as they
hunt for most of their furs they are not numerous but are connected with
other ^{scattered} tribes.

Nasb, this tribe is the most powerful tribe on the Coast and bad disposed
at this place Mr Fox of the ship ~~Hauntton~~ was killed while on shore
wintering about 8 years since their language it is almost impossible to understand
or learn they are great hunters and sell you a many skins

Sp after 12 hours take out for midnight & noon & before noon & midnight

W. Roy's cargo In the first place we had but one kind of Muskats
on board the beaver (excepting rifles) which in two weeks after our arrival were
not worth a beaver skin each & not a half a dozen of them was sold for the
first two seasons the backs of them were good for nothing & the bones ²⁵ ~~worth~~ to the
pound. Our orders were to fall in with the Lascars immediately - the consequence
was we were forced to beat up Chatham Straits ^{by which we} & lost thirty or forty skins

Henegar

bearings of the Different Rocks &c

Elph^t Bl^t S. 30° E 6 miles
 1st Ledge S. 75° E 2 1/2 d
 2^d do S. 80° E 1 d
 Rock N 10° W 3 d
 Sth^m Point N 40° E
 Nth^m do N 25° E 8 miles
 Warrens Bl^t N 40° W Nth^m Pt
 do do W West Point 5 miles

Check made from this
 the low Point to the South of the low point of Entrance S. E. by S.
 the Bluff N. W. by N. the sunken Rock bore North

The outer Rocks off the Eastern point of Warrens Bl^t bear from
 the Bluff of Entrance to Henegar S. W. not further out than Vancouver
 has laid them. Menton

+ The A Rock in the Duke of Clarence Straits and off the Entrance
 to the same (Northern Passage) bear N. by W from Port Mendenhall

The sunken rock off the Bluff of Henegar bears from the
 S. Eastern point of the Low Island (off the Entrance to the Harbour) South
 1/2 North by East 1/2 North from the S. Western point of
 Warrens Island all by 27th

+ A sunken rock in Clarence Straits bears S. by W. 1/2 W. by Compass from the Western
 point of the Rock Island to the Westward of Point Mendenhall.

To the Eastward of Pt St Johns are two or three small Islands which with the Point make
 a small Bay where ^{there is} good anchorage in 14 fms

A rock off Pt St Johns S. by W. 1/2 W. 1/2 miles

Being Shetgates Bl^t to bear S. by E or S. by C. & the Day stacks
 S. between them and steer for it you will go in in 15 fms

Course from the North Pt of Warrens Bl^t to Cor you W. N. W. which will carry you clear of the sunken rocks

The dangerous sunken rock of Sebastians bears from
 the low Island rock (off the Harbour Pt of entrance)
 S. W. by W. 1/2 W. 1/2 N. E. by E 1/2 E

If on the Shetlgates, show & bound round pt Rose in thick weather
stand over the Eastward & keep the lead a going, one mile from the ~~shore~~
the N. ^{Eastward} of Shetlgates you will have 6 fms water in running to the
Eastward it shoals gradually 6, 7, 8, 9 &c to 30 & 35 fms when in 30 or 35 fms you may
be sure you are to the East of the pt when you can go round in safety by keeping
in this depth of water which you can do by when you deepen your water to
40 + 5 fms you are round. In thick weather the rocks off Stephens Is^l are
often taken for that off Pt Rose, but are easily distinguished, for off the Pt there
is only one rock & off the Is^l two in a N.W. & S.S.E. direction from each other
and can be both be seen at once, there is a good passage between them & the Is^l
but should water round them, the breaker off Pt Rose is not a rock but a low
sand hill

Feb 29, 1844 saw the breaker off St. Eyras, the N. Eastern pt of
the Is^l in range with the rock. S.E. $\frac{1}{2}$ S.

Henegaw. Took a hook quail, a
Chicken Skunk — or

Care should be taken not to get too near the north & NW point
of Warren Island in very light winds, but if bound down through
the passage you can shave the Eastern point & the tide which
is very strong will take you through even with a tight head wind
but it sets very strong down the strait & directly on to the NW point
of the Island

Coming round pt Rose & bound to the North the tide (flood) sets
very strong to the Eastward through Brown passage &c —

The Cocklain Indians leave the Winter Village for Elenel Ceede
about the first of March.

The Lebarlin continually changing their residence & come from
their Winter Village to Neys Harbour about the first of March.

The Napp tribe leave Lenna Coons about the last of February
for the Bow Harbour (observatory inlet) & return the first of May
& leave Lenna Coons for their Squagen Leno in June.

bears from Shidegates N. by E.

Feb 9th 1872 This day at 2 P.M. hove up the anchor and proceeded out of the Harbour of Lattas Key for Nassau but being becalmed off Cape Barry we found it impossible to reach Nassau before night. At 12 the breeze freshening we endeavoured to reach the Harbour of Cockburn but the wind again died away and we could not see the land plain enough to run without danger accordingly tacked ship to the Southward we have with us as an interpreter a Native Indian Chief by the name of Powell At Kigama 11 pines 9 Cobs

Feb 10th This day, at 12 O'clock came to anchor in the Harbour of Cockburn ^{in 13 fathoms} but found no Indians. when we fired a gun and soon saw three Canoes coming round the point South point of the Harbour on board one of them was a Chief by the name of Jones he came on board and dined. he says that Capt Clark of Ship Sultan left this place yesterday which is an abominable lie. He also says that furs are plenty, as the Stikene tribe are at this place ^{at times}

March 11 Commences with a thick fog and rain with heavy Gale from the Eastward. A few Indians on board with Deer, Ducks, Geese & Swans for sale but no trade in furs as the wind is so heavy the Canoes cannot come off plenty of Game at this place.

12 Begins with a thick rain storm and ends the same a number of natives on board a little trade in furs. the head Chief by the name of Neacoot and one of the Stikene Chiefs were on board to day, Neacoot drank 2 or 3 Hootles and went off very much intoxicated NB he appears to be a pretty troublesome fellow particularly when drunk.

13th Commences with pleasant weather purchased two prime skins This day the chief of the Stikene tribe was on board ^{named Shakes} and a number of others. Shakes appears to be a pretty crafty fellow and it is said he intends taking the first vessel he possibly can to revenge the death of his wife, Lutha who was killed by Capt Dill of Brig Otter some time since 211 ds from Boston Lat Cockburn 55.03 North

14 Begins pleasant wind no trade and but 2 Indians on board. went on shore with Powell foraging in Larragap Harbour killed nothing.

15 March 1822 At 3 AM hove up the anchor and got under way
for Narso at 7 AM we are in the strait with light wind making
best of our way for the harbour the wind very softening
At 2 AM we were becalmed at the entrance of the harbour and were
obliged to tow & sweep the Brig in soon after clearing the passage
fired a gun which was answered immediately and we were
boarded by Capt Clark of the Ship Sultan who had been in the
harbour 3 or four days, and he collected all the skins Capt Phargor
This day a fresh breeze from the Westward and cool but few
Indians on board and no trade.

Narso Mch 17th & 18

18th Commences with a light breeze down the straits and pleasant at
5 AM hove up the anchor and proceeded down the straits the Company
with the Ship Sultan the wind being light the Sultan shot ahead
of us after having cleared the straits saw the Sultan luff to the wind
and soon after we saw a ship at anchor in Clemell City he immediately
hove up and came out and the Sultan making for him we sailed ahead
and hove too for them when within distance he proved to be the Ship
Hammett Capt Martin (in his own words what there was left of him) he soon came
on board and dined as we were all becalmed together at 12 oc a fresh
breeze springing up made all sail & the ships the same we kept the Sultan
alongside & left the Hammett at 4 PM saw the rock between Cape
Ulmy & Cape Northumberland we were within half a mile of it and
it showed itself very plain at sun down altered our course for North
Island.

19th Begins with a fresh breeze & clear North Island but little
distance off at 9 OC Came to Anchor outside of the Harbour in 13 fms
a number of Canoes came off they informed us they had plenty of furs
but at that time the wind was so fresh they could not come off and as there
was some appearance of their having some furs we hove up our anchor &
went into the Harbour and let go the best Bower Anchor in 13 fms. And
bottom here we lay with a moderate breeze until about 12 o'clock when
the 2^d Officer informed the Capt the vessel was a drift we found she was
within her length of the shore (at this time there was about 50 Indians alongside)
immediately let go another anchor and carried out 2 Redges hove at the
windlass and warp her off a short distance soon after we found she was
again a drift we soon hove up the Bower and got under way and found
our Anchor broken off ^{the shank} and both flukes gone. ~~this was very narrowly~~
~~escaped~~ at this time our situation was very dangerous and had the wind
freshened we must inevitably go ashore and undoubtedly been massacred
there was a number of Indians on board & 2 Chiefs Alden so and Chin fresh
the Indians did not appear to know our situation nor care as those on board
very readily took hold of the harpoon and ~~work~~ as well as our own men
until they got tired. another day like this may I never see. NB there was a flume
in our anchor about half way through.

March 20th 1822

This day tackling ship and beating the whole day between North Island & Rignee (or Cape de Muson) point thick in snow storm & rain

21st Begins pleasant & with a fresh breeze at North Island in sight at day light at 11 AM came to anchor outside the passage in 13 fms soft bottom after firing several guns a number of natives came off and commenced a little trade at 5 PM not thinking our anchorage very good hove up and towed the Brig out when we took a breeze & stood away for Rignee

22nd Commences with fresh breeze & pleasant but squalls of snow during the day the wind to the Northward we endeavoured to reach Tatter this but after getting inside Rignee point found we should not be able to get in the wind was directly out - tack ship and stood off to N Island

23 & 24 these 2 days beating between point north & Rignee stiff breeze & squalls of snow

25 March 1822 First part beating to the westward towards night the wind hauling to the Southward made all sail to the Northward for Chatham Straits at 7 PM Douglas or Forester Island bore W by N

26 March

Begins with fresh breezes from the SE and a thick fog sent down the Gallant Guard at 2 PM ship to the Westward at 1200. Heavy rain ship to the N & Eastward

27th At day light this morning saw the Hazy Islands bearing NE by N at 9 AM ship to the Northward

at 11 past 9. About of Cape Munnany & Cape. - She calmed at 10 A stiff breeze from the Northward down the Straits the remainder of the day plying with short tacks up the Straits Cowell sick and very much afraid of dying in Bed which he considers a disgraceful thing At 5 PM opposite a Harbour called by

Vancouver port Conclusion and as the weather looked dirty we thought it best to run in and at about 6 PM came to anchor within pistol shot of the shore in 25 fathoms Clay bottom this Harbour is surrounded on all sides except the entrance by mountains about 2000 feet high and no Indians

28 Begins and Ends with a very thick fog and heavy rain boats on shore wooding & watering

29th March 1822

At 9 o'clock Am heavy raining weather got under way and proceeded out of the Harbour of Pitt. Conclusion and stood away for Ellicanoo the wind to the Southward at about 5 P.M. came too in the Harbour of Ellicanoo in 24 fathoms soft bottom about sunset shot from the shore on East side. we found the natives all gone except a very few but are expected here in two days. the Capt Harris of Brig Leicester left here two days since for Hudson's Bay

30th Commences with rain a few Indians on board & no trade

31st Pleasant & warm went on shore Howling but killed nothing. no trade; the Indians expected tomorrow

Ellicanoo April 1st 1822

Begin pleasant & warm about 12 o'clock a number of Canoes came in but no skins to be had and no prospect of any bad business

2 Remarkably pleasant a number of Indians on board & two or three skins but no trade

Ap 3 This day purchased two skins of the Chief 100 Shup & then he wanted this to make a feast for his people who were in mourning for his Child that died a few days since

4 April 1822 This day at 3 Am the wind to the Northward got under way and stood out of the Harbour after we were out crossed a bar on the Starboard side in 4 1/2 fathoms water; until 3 P.M. plying up the straits and making little or no head way at 3 the weather looking heavy was ship for the Harbour but would not get in as the wind dying away and the tide setting out — stood off to Westward during the heavy squalls of wind under many sail

5th Begin with stiff breezes from the North with squalls of snow ~~beginning~~ ship every two hours & making no head way in 20 miles with heavy breezes & snow & hail

24th Apr 1822 Commences with fresh breezes from the Northward and clear flying with short tacks up the straits and making but little head way

7th Apr this day the wind still to the North and a stiff breeze standing across the straits tacking ship every hour. at sun down opposite point Gardner a number of fires on shore & Bygones with a light breeze from the Northward at 12 Calm and a number of Canoes along side for chum One Otter - fired a number of Guns the Indian inform us that Capt Harris is at Hudson Hoos and Capt Sturges further up the Straits

Apr 9th 1822 the past night beating off and on in the morning pleasant and warm - off the port of Hudson Hoos about 9 o'clock opened the Harbour and saw the Brig Lascar Capt Harris at anchor at 10 o'clock to anchor when Capt Harris came on board

10th this pleasant and remarkably warm a little trade Hood, 10th, Hoos
this day entered into an agreement with Capt Harris for a diversion of them to the first of September next

11th This day an unfortunate affair happen on board our Brig it was this Cowell was leaning over the side bargaining for a hat with a fellow in a Canoe the 2^d Mate (Lamphear) ~~by his side~~ was standing by the side of him he Lamphear, observed to him he offered too much when he and Cowell said to him Chi, ee a word which they use in a number of ways - contempt - not good &c. when Lamphear put his hand on him whether in anger or not I do not know - Cowell shoved him off. Lamphear got mad and pulled down his hair which was tied on top of his head and struck him, the pulling down his hair is a thing they never will forgive and which a disgrace which nothing but blood will wipe away Cowell was very, mad and talked a great deal about it asked Capt Harris who was onboard if he forgot Harris! He now tells him frankly he shall kill him the first opportunity he is a great fighting character, and has killed a number for a less offence than this and will probably make true his words if he has a good opportunity - a bad affair

12th Ap 1822

Hudson Floo

This day pleasant but rather cool and no trade with the Indians see a man from Capt Harris, vessel to take an account of Skins

13th At about 5 oc bore up and sweep out of the Harbour in Company with the Lascar after getting out in the straits had light breezes from the Northward the Lascar along side at sun down opposite Prince Fredericks Sound for which the Lascar bore away No 2

14th At day light this morning abreast of the Gary Islands (there is more of these than is laid down on the Chart) with a fine north West breeze at dusk abreast of Douglas Island on the North side before dusk saw the Wolf Rock. Douglas Island appears to be a very dangerous place for a ship in the night or if becalmed near it as the side is very steep between it and the Island of Archipelago and there is rocks all on every side of it particularly on the West side of it they make off I should think a mile & a half 141 days from Boston

15th At day light this morning becalmed off Pigarnis point where a large Canoe containing about 25 natives from North Island came along side with a Chief by the name of Shid, a, ga, lu. Lowell went on shore with them we were becalmed off here untill about 3 oc. a large Canoe came off with Shitagates a famous Chief of that tribe purchased 8 Black Skins at 5 oc bore away for Cape Murry with light breezes this morning a little to the Eastward of Cape Northumberland with light breezes making the best of our way for Kars at about 3 oc opposite the Canoe saw a large rock of it distant 1/2 mile, abreast of point Whales at sun down and took a fine breeze up the straits at 12 oc at night abreast of Kars the wind dying away towed into the harbour and soon heard a gun and was boarded by the Chief mate of the Ship Hamilton

17 This day commences with a thick South East wind with fog and continues untill night little or no trade

Narso April 18th 1822

Commences calm and pleasant, engaged with the Skins with Capt Abarton until the middle of July, we offered 6 fathoms at this place to day the first Vessel that ever done it and commenced a brisk trade in furs — collected 26 Black Skins. at this place a number of years ago Mr Fox & mate of the Hamilton (Porter master) and the Boats crew were murdered by the Indians. It was occasioned by the Clerk striking an Indian while trading with him.

19th First part pleasant latter part heavy rain and wind some trade in furs Capt Abarton on board all the forenoon on the old cat

20th Commences with a thick South Easter with heavy gales of Wind some trade in fur the fellow on board this day that shot the Mr Fox

21st Pleasant and Cool no trade

22nd At 4.00 this morning weighed Anchor with a light breeze from the NE from Narso after proceeding a short distance down the Straits took the Wind to the Southward with squalls of Snow & rain flying from one side of the Strait to the other. At sun down we follow the Hamilton into a small harbor on the Western side of the Straits not far from point Wales, & anchored in

23rd good bottom this place may be known by a small Bay, with a small Island in the center — some in running into this place you can keep round the point and as soon as you find the harbour haul close harbour for a South Easter

23rd April 1822. At 2.00 this morning weighed Anchor with light breezes from the Southward after passing point Wales the wind freshened and after passing Sol Pass the wind blew a hurricane took in the Spencer's topsails & set the Fore sail lost sight of the Hamilton carried away our Fore top sail shot in the afternoon. more moderate and endeavored to weather Cape Murry, but were not able were ship to the Eastward ends, thick and dark, taking weather. Capt Martin says he never experienced heavy a wind on the Coast

24th Commences with heavy squalls from SE and foggy this morning saw the Hamilton to the leeward endeavored to weather Cape Murry twice this day but were not able at 3.00 in the afternoon the Wind hauled to the SW & squally. Lost sight of the Hamilton the last we saw of her she was keeping away I suppose bound round point Rose

25th At 10.00 this morning came to an Anchor in Regained and found the Ship Sultan at anchor at 1/2 past 10 the Hamilton came to Anchor.

26 April 1822 Commences with light breezes from the North West
No trade to day At about 5 P.M. in the afternoon the Ship Sultan
Capt Clark got under way and proceeded out of the Harbour

27th Commences with a heavy gale from the S.E. and foggy at 11 P.M.
in the forenoon the Brig Jobbyha arrived Capt Grimes under a soft
fine fair and thick foggy and severe gales of wind & rain

28th Commences with Wind & heavy rain and no trade Capt
Grimes on board says he has collected 170 Black Skins

29th April Commences with rain and fog went on board Capt
Grimes and dined. Ende pleasant sent up Mr. J. Gallant & his must
some of the Spars we left here have been cut and our H. Rais is
gone, as our third mate and a boats crew were on shore to day ^{changed}
some Indians go up into the bushes. soon after one of them came
down to the boat and collected one of the men with a long dagger
in his hand and said he should not go off, the man extricated
himself and springing into the water and reached the Boat which had
shoved off no trade to day

30th At about 11 P.M. last night unmoved and proceeded out of
the Harbour of Tattus Bay in Company with the Ship Hamilton
this morning at 7 P.M. about of Point Moore with a fine breeze, at 4 in
the afternoon entered the straits and at 6 came to anchor in Shebushes
Course up the Straits East

May 1st 1822 Commences pleasant but Cool a number of natives
off and but little trade as the Hamilton is in Company with us together with
all the other vessels on the Coast but none of them have signed any agreements
excepting the Lascar & Hamilton and I fear their will be some difficulty about
it ~~but~~ It is agreed that the Ship shall do the trading at this place

2 Begins raining and heavy breezes from the S.E. with fog and continues
throughout the day and at night the Gale increases let go another Anchor
the Hamilton astern continues through the night heavy rain & Wind

3 This day as yesterday foggy and tremendous squalls of wind
and rain two anchors ahead and the Kedg no natives on board
but Shebushes he came off in the afternoon

at noon down the gale continues and rather increases
dreaded of some bad days being sick at home

Brig Rob Roy on the Coast

The barkers day 4th 1822

Commences pleasant with light breezes from the Eastward
a number of natives on board and along-side some small trade sh

5th At 8 O'Clock this morning unmoored with light breezes from
the Eastward but were obliged to sweep out after getting out in
the Straits took a stiff breeze from the Westward lost sleep the
fore sails all day and night flying with short tacks down the
Straits

6th This morning at Sun rise at the mouth of the Straits
the Wind to the Westward during the day tacking ship to
weather Archipelago point the Hammeton in Company

7th Begins with Wind to the Northward and fresh breeze
off the South and West of Point rose at the afternoon
some Canoes came off but no trade at sundown the wind
haul to the Westward. and at 11 O'Clock past Point rose.

8th At day light this morning becalmed off Brown's Passage
soon after the wind sprang up from the North made sail
at 12 again becalmed at 3 fresh breeze from the Westward
made sail for Kasse at sun down again becalmed off
Pt Elias & Diindas

9th In the Night passed between Dundas and Bear Islands the wind
Dying down & lamp through the passage In the morning calm
at 9 O'Clock light wind & sail the Hammeton came to Anchor in
Chinell City and at about 4 O'Clock we also came to Anchor in 21 fms
10ft Bottom in the outer Harbour. Chief Shaker, Jones Ke coat on board
Lampkin our Liberator put off duty for refusing to go ashore & see
the Divis to pay ^{the} ^{Corow} ^{in this passage} ^{it bound to the Cleave the rock}
10th During the Night weighed anchor and went into the inner
harbour morning Commences pleasant a little trade in fur

11th Pleasant and no trade Ke coat on board Amund
with Capt. Sturges, Nassau suit on
is entering the harbour keep the Small Island on the Starboard
head

of North West America 1822

12 May 1822 Commences pleasant. At 10^o got under way & proceeded out of the harbour after getting out the wind again, & drift anchor in the outer harbour the Hamilton also.

13th Commences pleasant & wind none. At 2^o we went out the harbour again & came to anchor no trade.

14th Began with a fresh breeze from the S.E. & rain.

15th This morning the 2^d officer Lamplugh put in bonds for refusing to do duty before the mast and being rascally to the Captain at night he came to his senses and wanted to be taken out acknowledge he had done every thing he could to make difference between the Capt & crew and acknowledged he deserved his punishment and wished to go on board Capt Martin's ship.

16 Commences pleasant & the wind in the old quarter S.E. the 2^d mate let out of bonds and at night went on board the ship no trade today.

17 Commences raining with heavy wind from the S.E. no Indians along side but night drifted our anchor a little.

18th Commences with heavy rain & wind from the S.E. no trade with the Indians.

19 This morning at 5^o we moved and towed out of the Harbour no wind after clearing the inner Island light breeze from the S.W. out all sail for Mass the Hamilton in Co at about 4^o Entered the Harbour of Mass under bare poles the first sounding 10 fms. that attempted to let go the anchor when she stopped by some accident was jammed by the Shackle and we were obliged to cut it away where we brought up in 3 faths. sent out the Hedge and warped her off into 6 faths the ship came in soon after.

20th Commences with stiff breeze from the Southward and clear some trade in four 10^o breeze. Staking in row low from the Hamilton.

Brig Hol Boy on the (Nass)

22nd Commenced with stiff breezes from the southward and a clear
a great number of Indians along side and at least 500 Canoes
in sight as the Indians are about moving to Pearl Harbour
but little trade in fur & plenty of Iron & Tin along side - Cheap

23rd Day Commenced with a South East wind & heavy and
hard rain but few natives on board and no trade taking the
oil from Ship Hamilton

24th Commenced rainy and light variable winds and foggy this
morning about 300 Canoes started for Pearl Harbour at 11 o'clock
Clear the Hamilton got under way and proceeded down the
Strait, a Sailer by the name of Rodman put in hours for striking
the first officer - a scenery can Enos with light winds from the South
the Ship in sight just at night not having made any progress.

25th Commenced with Light winds from the northward and clear
at 5 o'clock in the morning under way and proceeded out of the Harbour
after running about 10 or 12 miles from Nap took the wind at the South
and a stiff breeze the Ship not in sight at 5 o'clock down a little
to the North of Point Waly flying with short tacks down the
Strait this morning there were about 200 Canoes in sight
on their way for Pearl Harbour ~~was~~ rainy and gloomy weather
after clearing the Straits took the wind to the South and
strong gales at 6 bore away for Cleaveland at 11 past 7 came
to an anchor in 18 faths and found the Hamilton at anchor
1000 after we came to anchor a severe storm came on with heavy rain
which continued all night

Cleaveland

26th Commenced with heavy rain & hail wind from the S.E. but few
Indians on board and no trade ends cool & cloudy

27th Begins with light Breezes from the South & severe showers
of rain & hail ~~but few~~ natives on board & no trade
Coxswain the Nass chief came in with a large Canoe
Clear a native of the Cacklam tribe on board and a
going with us - this is the man that saved Cape Elbert's boats
even and the best Indian on the Coast

Coast of N. West America 1822

28 May 1822 Begins as usual with fog and a heavy rain at 8 o'clock got under way and towed out the N.W. passage the passage should never be ventur'd except at high water, after clearing the Narrows give the point on the barboard side a good berth but it is shoal and rocky heavy wind until 4 o'clock at the time off Cape Henry with light breeze making the best of our way for Kigarnes for several guns the ship in company at 11 o'clock at night came to anchor in Kigarnes and found the ship Sutton at anchor

Kigarnes

29 Commences raining and no wind at 12 o'clock Clear in number of Canoes along side but no trade collected ten or three sets of Canes pleasant wind at S.E. and stiff breeze

30th Begins pleasant but cool with stiff breezes from the Eastward and cool but few natives on board and no trade Ends with fog & rain

31 May 1822 Begins with a thick South Easter with fog & rain and heavy rain at 12 o'clock let go our small Bower as we found the ship had drifted considerably. no trade & but few natives on board ends at night the storm continues

June 1st 1822 Begins pleasant and warm a number of natives on board but no trade wind at the Southward and light breezes. hove up the anchor and found it foul

June 2nd Commences Pleasant with light winds from the Eastward a number of natives on board but no trade at 5 o'clock unmoored and swept out of the harbor after getting clear of the point light breezes from the westward the Sutton & Hamilton in Co

June 3rd During the night so very little wind and made but little progress the morning commences with a thick fog and a good breeze from the Westward at 1 o'clock passed point Rose (partly near) and hove too under Neacowd. a few natives came off but having no trade bore away for Sebastian. at 8 o'clock off the entrance of the Canal fired a number of guns, as it was thick & foggy thought it not prudent to venture up the straits but stand off & on light breezes during the night

Brig Wool Thor on the Coast

June 4th Begins with the wind to the Westward and foggy at day light bore away for Sebastien and at 8 oc came to anchor. found that the Owyhee had been here: but few natives on board and but little trade

June 5th Commences with rain and light breezes from the SE at 12 oc unmoored and proceeded down the Straits: a number of skins on board which they carried off on account of the price they wanted of fathoms and ... at 1 pm down point Chertow bore North by Compass: ends thick & foggy

6th Begins with a fresh breeze from the West & foggy course N. at 12 off the passage of Dundas Island but as the appearance of the weather was foggy thought it not prudent to attempt it as it is dangerous at 6 oc passed Seal Rock at 4 past 8 Locked Ship to weather the Neck to the Westward of Cape Northumberland and the Hamletton in Co

7th Duke of Clarence: Straits

At day light this morning off point Percy with a fresh breeze from the West at 11 Calm and Variable at 12 a fresh Breeze from the NW ran into Chuk-na-hoo (Called by the Indians Char-senah) but as the wind was drawing up the Straits did not come to anchor, we being a little astern and to leeward of the Hamletton. the Wave round and ran foul of us but fortunately did us no damage, at 8 oc abreast of Point Grindle with light winds, rain & very thick fog. the point which marks this Harbour may be known by the NW point a tree on the NW point trimmed up to the top and appears like an umbrella it is surrounded by others but is higher than the rest. a sunken rock lies off this point about a musket shot at low water a large quantity of Kelp may be seen on it it is bold n. bottom in twenty fathoms, half a Cable length from it (to the West)

8th Commences with showers of rain and foggy with light breezes from the South; off Point Burdow at 8 oc abreast of a Harbour that Capt Hale is the Brig And run in, in a SE Gale while looking for a beach to run her ashore; stood away twice for it but the wind increasing did not enter it is almost impossible to distinguish this place; but there is a tree trimmed up almost to the top on the NW point of the Harbour; but cannot be seen unless close to it. During the forenoon making our way up the straits with light breezes from the South and showers of rain, at 4 oc abreast of the passage to Stikene

of N West America 1822

and a favorable breeze struck up and sent us pretty well ahead
passed the Island (in the Entrance of the Straits) Larboard side of the
Island in 22, 11, & 10 fathoms water, after passing the Island took fresh breezes
from the N West & S West. after passing the Island met the tides which runs
tremendously and with a 10 foot breeze could hardly stand it at 1/2 past 8
came to anchor in 19 fathoms abreast of a hill that resembles a sugar loaf
payed out 70 fathoms cable, the Hamilton paid her Cable and both her
small Breezes anchored. fired several guns to let the natives know of our
arrival

Stikene

9 June 1822 Commences with rain & fog this morning fired 2
Guns which was answered by a vessel round a point to the North of
us soon after a Canoe came to us and informed us the vessel was the
Swedish Capt Grimes and came here through the NW passage from
Hemigard; ends pleasant but cool a few natives on board and but
little trade

10th Begins Pleasant and Calm a number of natives on board
and some trade at about 4 o'clock the Swedish have round the point
but being localised the Hamilton & ourselves sent two Boats and towed her
in; and at about 12 at night she came to anchor, Mr Haysworth died at
North Island a few days since

11th Commences pleasant wind S.W. a good many skins along side
but little trade at 5 o'clock the Swedish have up and bent out of the
Harbour into the NW passage to Hemigard the warmest day we have had this
season except Crew painting the vessel

12th Begins with heavy rain and fog wind S.E. but few Indians on
board and Shakes, the Chief but little trade in fur: 4 pieces
ends rainy and cool

13th Commences with heavy rain & rain and the usual wind is S.E.
but few Indians on board and but little trade at this place we have
purchased 20 M skins the Ship 30. Grimes purchased 40 in all 90. Ends clear and
mild Cool Shakes on board

14th Begins as usual with rain & fog but few natives on board
and but little trade sold Shakes our Whaler Boat for 14 pieces
skins. Commenced at the Straits and after passing Entering the passage to
Stikene North this place is called by Vancouver Island
but there is a passage through it and at the Northern part is Stikene
the tides at this place runs tremendously

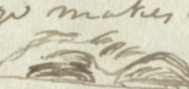

Clavencey
Strait

Brig Rob Roy on the Coast

June 15th 1822. Commences cloudy and calm with light breezes from the South but few natives on board and no trade At 2 P.M. hove up and got under way with light breezes from the North, afterwards the wind changed to the South; during the afternoon playing with short tacks and sweeps down the passage ~~very~~ making but little progress on account of the tide which runs tremendous strong and with it ahead & a vessel cannot be steered

16th During the past night calm and the Brig drifting about with the tide morning commences calm which continues until 12 o'clock then light breezes from all parts of the compass at 3 o'clock cleared the passage after getting out in the straits took heavy breezes in squalls from the South and obliged to tack ship very often and with stiff breezes from the South

17th Begins with fresh breezes from the South and clear making the best of our way down the Strait at 12 Calm but soon after fresh breezes from the West ^{with rain} & made considerable progress down the Strait at 6 nearly calmed at 8 light breezes from the South ends moderate the ship in company

18 Commences with fresh breezes from the South with heavy squalls of rain the past night made but little progress At 4 P.M. calmed up past light breezes from the Westward off the harbour formally spoken off sent a boat to sound the entrance, in entering kept the Rock on the Starboard side best on board as a ledge makes off on the Larboard hand, in the entrance is 13 fms at high water.  about a mile to the North is a point that makes like an island from the West and cloudy the Hamilton out of sight astern

19th Commences with light breezes from the North West & clear at 10 Breeze freshens but variable At 2 about of Chuckmahoy and almost calm two or three Canoes came off bought one Prime, one Deer, & Bull boat &c at three fresh breezes from the N.W. and pleasant under all sail at 7 o'clock about of Tumgaff all sail out before the Wind

20th At sun rise this morning about of Brown's Passage with fine breezes from the Westward & clear at three o'clock hove too off Stephens Island and purchased 8 skins of the Naps hunters, at 3 fell away and proceeded up the Canal at 5 Came to anchor in Sebastien in coming in ~~it was~~ high water and we shaved the sunken rock pretty close no trade as yet with these Indians

Sebastien

21st Commences with stiff breezes from the Westward and cool the Chief Sebastien's Cachax on board and drunk both of them no trade as they want 7 fathoms the Indians very saucy

of North West America 1822

22 Begins with stiff breezes from the Westward and cool about 300 a number of natives came off and commenced a little trade - 8 primes - too many natives on deck and the first officer - at 4 p.m. the Indians left us, except Bell Selam, who slept on board No 3

23 Commences with stiff breezes from the Westward but pleasant a number of Indians on board and considerable trade via 22 Black Skins, Sebastian the chief sold 8 in a few days. They leave this place for another harbour to catch & gorge or Salmon and want very much to have us go. At 3 they harbour they attempted to take Capt Pennet in the Volunteer by falling a tree against the cable wire

24th The old West wind but pleasant but few of the natives on board brought 8 primes & 8 lbs purchased 7 Black Skins of Wash a staff Indian he says he heard four guns from Pearl Harbour probably Capt Sebastian

25 Morning begins pleasant wind to the Westward, at 900 light breezes from the South Sunnover and proceeded out of the Harbour after getting out in the Straits light wind from all points of the Compass and showers of rain at 800 off point Chabotson wind S.E. at Sebastian purchased upwards of 60 Black Skins, end foggy

26 June 1822 During the night light winds & calm morning commences with light breezes from the S.W. and a very thick fog about 12. It cleared away and we found ourselves to the South East of Brothers Passage having had during the night and forenoon a strong tide against us at 3 Clear & breezy but cloudy Cape Murrey N.W. yet ends with a good breeze from the S.W. N.B. to whom it may concern this journal to be kept in little better style for the future

27th Begins clear with light breezes from the West Cape Murrey bearing West during the forenoon light winds from different parts of the Compass at 1100 off Point Percy fir several guns a few gunners came off and said there were four vessels in the bay at 1 entered the harbour of Cocklane & at 4 p.m. Drove anchor in Tungass and found the Possie Owhyhee & Leascar & Ship Sultan & Hamilton. The Hamilton had on shore repairing it seems that the Sultan has had a pretty narrow escape the circumstances as near as I can collect are these She was at Pearl Harbour and had been there two or three days when the Hamilton arrived the Hamilton after staying there two days hoisted up and proceeded but together with the Sultan the H was ahead about 1/2 miles when the Sultan struck on a rock and remained fast as soon as she struck she fir two guns when the H immediately wore round and stood towards her when she struck there were but few canoes along side but immediately about 500 Indians started from round a point and divided themselves half under the stern & 1/2 on the bows together with a great number of them ashore

Brig Rob Roy on the Coast

Sumgaff

each of them a blunderbuss. they appeared to be very angry and said that as the ship was at anchor it was good to fight and if the S^t had been 6 miles off they would inevitably taken his ship and it seems almost certain that they had it in contemplation before if the S^t had not arrived as he had not seen more than a dozen Canoes at a time before while there and so many of the natives & Canoes in one small place where there was no doubt to the outposts. The S^t Hammett coming up to relieve the Sultan struck on a rock but did not hold the S^t by backing her sails slid off but in wearing struck again slightly. The masters of the Vessels here were very much afraid that we were taken, and that the Nip Indians knowing we were at Sebastian had gone over there, as at this place they have had Southerly wind there or four days, and the Orkney was going out the next morning in search of us. Ends light South^r winds and a thick fog

June 28th

Commences with Southerly winds, and cools the S^t Hammett hauls off and the Sultan ready to haul on shore but waiting to see how Big Martin play the game ends with a thick S^t Easter with fog and Rain

29 June
1822

Commences with Rain & Tremendous gales of wind from the S.E. all the forenoon at 3 P.M. moderate and at 4 Clear and but little wind but few natives on board and no trade

30th

At 12 O.C. last night the Brig Fredrick arrived Capt Pluton from Henegar. this day made a diversion of Skins in which we had to turn over 34 Black Skins to the different vessels the morning commenced clear but at 12 O.C. it came on from the S.E. with very heavy squalls of wind & Rain & fog ends the same.

July 1st
1822

Begins with tremendous gales from the S.E. with heavy rain and thick fog about 12 O.C. more moderate and in the afternoon tolerably pleasant this is the most stormy Harbour on the Coast and it is never thus dry without rain or some kind of storm. but excellent holding ground. and one of the finest Harbours in the world

2

Begins cool and Cloudy with light variable winds employed paying out skins. and taking their miserable stuff & abate on shore burning coal to smoke Our vessels as we are now run with rain ends moderate & Clear.

North West America 1822

Sumgaff
2 July

Begin with light winds from the South and cool employed taking out the powder and carrying it to different vessels no trade and no natives along side.

3 July 12

During this time the independence of my Country was celebrated by a salute from all the vessels in the harbour with their flags aloft &c &c 5 Commenced smoking one vessel 8 and 9th taking the cargo (one share) from the Hamilton and collecting the trade for skins turned over to the different vessels 34 Blacks and about 80 Land furs 9 & 10th very busy in writing to my friends for Hamilton during this time it has been almost a continual gale of wind with rain & fog

13 July

Begin with light breezes from the North & West at 10 o'clock the forenoon hour up and preceded with light winds out of the harbour together with the Sultan Frederick Laska & Whyker the latter bound to Rymer's Pond, Harbour, the Sultan & ourselves to Shilegats & Sebastian the Frederick to Clapett & North Island ~~off~~ in going in or to Sumgaff on the outer Harbour keep the harbour side on board it is bold as on the opposite side a little to the west of the loose rock is a shoal runs off nearly half way across the passage and at low water there is a quantity of kelp on it we found over it in 3 & 1/2 fathoms water. on board an Indian who calls himself Mr. Shager, he has 4 skins.

14th

At 5 o'clock this morning passed point Rose with a good breeze off Bold Hill a canoe came off but we going so fast he could not reach us, and being vexed I suppose fired a musket charged with a ball which passed but a short distance from us at 3 o'clock Shilegats Bar had sounding our time 3 fathoms after entering the Bay took the wind ahead and were forced to beat up off the first Island on the ^{Starboard} Lashed side five fathoms, it must have a good birth, at 8 came to anchor in 14 fathom water and old Easter Commor the Chief on board he is called the Largest Indian on the coast and is certainly the fattest I have seen. the Sultan in Company

15th
Shilegats

Begin with a calm and towards noon light showers of rain a few natives on board and along side but no trade at this place last season the Laska & Hamilton had a bus with the Indians and killed the natives say them of them, particularly when I have time

Brig Roly Roly on the

Spidegates
July 16th

Begins pleasant land warm towards noon light breeze from the
but few natives on board and but little trade in Irow Low this day
on our account reminded me of home is plenty of huckleberry along side
and some soft bread for supper for the first time on board the voyage

17th

Begins cloudy and warm a number of natives on board
but no trade and a number of skins along side but Scots
Conson

18th

Begins Cloudy and cool the Chief and a few natives on
board and a little trade in Irow Low plenty of Berry along side
and very nice ends cool and dark weather.

19

Commences warm & pleasant at noon wind to the East and cool
but few natives on board & little trade. Last night we were very
much disturbed by our Ship Mate (the Indian) who is a bit of a Thugger
he says the Thuggers are their prophets Doctors & priests &c about two
o'clock he began with what he called to Thugger with puffing & blowing
& hollowing which made a most horrid noise but we roused him on deck
which made him a little vexed. he says his child is sick & a young man
is dead

20th

Begins pleasant with light winds from the West at 8 o'clock
got under way in Company with the Sultan after crossing the bar
(in 5.6.7 fathoms) took the wind S.E. in the afternoon strong breeze
with fog and rain at 4 o'clock Tacked Ship to the South & West
the ship beats us most shamefully and in sailing out of Irow Low we
beat the whole Fleet I saw Charlott's Island is the pleasantest part
of the Coast I have seen as yet & is not so high land as the other
parts of the Coast

Cumshewary
21st

During the night fresh breeze from the South East plying
with short Tacks to the South at day light he stood in for
Cumshewary and at 2 in the afternoon came to anchor in
the upper Harbour in 13 fms. Hard sandy bottom in running in
about of the village this is 5.6.8. & 10 fms good Bottom
a few natives on board but no trade Ends fresh breeze from
the West

22

Begins pleasant & Calm a number of natives along side & but
little trade a number of skins on board but went away on account
of the price as we called them but he bought some new potatoes
to day

Coast of North West America 1822.

23

At 3 o'clock this morning got under way with fresh breezes from the NW for Sebastien but at 4 made the Island off the Southern Entrance of the Canal and found ourselves about 10 miles to Leeward at 5 Tacked Ship to the West the Luttan out sails as very much as our vessel is out of trim and fine breezes from the North

24th

Begins with light breezes from the N & West tacking ship all day to the North East but making but little head way the Luttan out sailing us very much all day foggy and a strong current against us and light breezes and moon clear.

25th

Commences with strong breezes from the South East and a very thick fog with rain at 9 made the Island off Key Harbour at 10 a little clear at 12 entered the mouth of the Canal which is the narrowest part tacking ship every 15 minutes at 11 strong breezes and fog swept out the Luffsails but at 7 took in the Jibsail and set the fore Sail and wore ship down the Straits at 8 o'clock Cape at 1 o'clock 7 off Key Harbour strong breezes from the S E with very thick fog and heavy rain this day we have seen nothing of the Luttan

26th

The past night strong gales with rain until 12 o'clock at day light calm the Southern point of the entrance of the Canal bearing South at 8 o'clock light breezes from the Westward & clear the Luttan about 10 miles astern during the forenoon light breezes making the best of our way up the Straits at 12 bore freshens and at 4 o'clock came to Anchor in Sebastien but as we anchored too near point Corack we were obliged to leave up early out the Pedge and warp her over to the Northern shore at 5 the Luttan came in. The natives are all gone from this place further up the Straits collecting their Salmon ^{at this place}

Sebastien

27

Commences calm and at 12 stiff breezes from the Westward this morning the Chief Sebastien arrived and a few other Indians no trade in fur P. Ends Cloudy & cool. This Canal is called on the Chart the Canal de Principe

28th

Begins with fresh breezes from the Westward and a clear no trade to day but the chief Sebastien paid us two skins for debts a number of Kap Canoes came in to day and the Kap chief Cockat and Neachoot

29th

Commences clear but during the day squalls of rain some trade in fur to day a number of natives along side principally Kap Indians - they do not like our puttees better than I do

Journal on board Brig Rob Roy

1822
Sebastien
July 30th

fudge

Commences Cloudy and foal a number of canoes along side and some trade 27 primes. there is a good many Staff fellows here for what is best known to themselves. We told Sebastien the Chief that we should be here again in one moon when we was here before and my opinion is they had a plan laid to attempt to do us, and it is also the opinion of Cape Clark; they are offered to go on board of him

31st

At 6 o'clock this morning unmoored and proceeded out of the harbor with light breezes from the East at 12 off pt Ebertson with thick fog and stiff breezes took in Top Gallant Sails & Single reef the Top Sails after noon more moderate made sail at 8 o'clock Ship to the East thick & dark gloomy weather. The Sultan has purchased 45 black skins at Sebastien principally Enos for 5 fathoms as we would give them but four and his powder Box that he gave for presents was twice as large as ours

Aug 1st

Morning commences calm at 8 light breezes from the S.E. and clear at 12 stiff breezes Shaligates bearing South at 4 o'clock crossed the Bar 5 fathoms water at 8 came to anchor in 14 fathoms water the Sultan in Company A.D. there are sounding from the Bar up almost to the Village we had 5.7 8 10.12 15. 12.8. 7. 6 o'clock rocky bottom about 1/2 mile from shore - too near

Lagoon
Charlotta
Island

Shaligates
Aug 2nd

This day has been the warmest we have had this some time a good many Nations alongside a great deal of talk and but little trade ends warm / pleasant

3

Begins with the thickest fog I ever saw & warm at 9 clear and very warm a number of Indians along side but little trade & a great deal of talk the natives say Capt. Ebertson & Harris killed three of them in the action last summer but 8 or 10 would be nearer the truth

4th

Sunday begins remarkably pleasant & warm very still in the forenoon but in the afternoon the old thing over again Hazy, a number of natives along side and but little trade - ends delightfully ~~pleasant~~ weather

5th

Begins calm and in the afternoon stiff breezes from the Westward a number of natives along side a some trade; they want our trade but if we should give the same number of fathoms that ^{Cape Clark} they do we should by all the skins and be obliged to take his miserable trade

6th

Commences with stiff breezes from the Westward with fog and rain Afternoon clear and light breezes but few natives on board and but little trade the chief Carter comes on board and the grateful beggar I ever saw without exception

Coast of North West America 1822

The delegates
 Aug 7 Begins cloudy & Cool with fresh breeze from the Westward -
 but little trade to day Capt Clarke on board in the evening and
 says he has offered them a fathom of sea cloth & suppon to get the
 most skins

8th Commences pleasant and warm above the anchor short intending
 to go out but the wind dying away did not attempt it brought 4
 primes to day and gave them 5 fathom ends calm & pleasant

9th Begins pleasant & Warm At 9 oc in the morning calm hove up
 and swept her round the sultan in 6. 100m after getting under way
 took the Wind from the East and light the remainder off the forenoon and
 all the afternoon light variable winds at 9 oc at night became calm inside
 the Bar all hands at the sweeps. At this place our anchor held on better
 than we have had it in any harbor on the coast

10th Last night sweeping untill 12 oc and crossed the Bar soon after
 took stiff Breeze from the Westward at sun rise nearly up with
 ft Row at 12 about of it but did not see the Spit as it was thick
 in the afternoon clear and warm the Sultan ahead at 3 oc
 saw the number Rock off Cape Mury Cape Northumberland
 bore North from it we passed about 1/2 mile to Windward of it
 At 4 Light winds from the Westward at 6 about of point Percy
 at 7 passed the long rock in the Entrance of Cocklam we went to the
 Westward of it no sounding within pistol shot of it. at 3 in
 the after noon saw two Ships off point Davison supposed to be
 the Dryden & Lascar. at 9 oc in the Harbor of Cocklam standing over
 at 1/2 past 9 came to anchor 10 fathom in the Entrance of Tungas Harbour

Tungas
 11th This morning at three oc hove up and swept into the Harbor of
 Tungas together with the Sultan and found the Ship Frederick, Lascar,
 Dryden, & Ship Hammett. the two Ships we saw off the Division were
 the Lascar & Frederick who got under way that morning to go out in
 much of us supposing some accident had happened in the afternoon
 dividing skins with Capt Clark

12th Begins cloudy with rain this day making a division of 4 skins
 with the other vessels paid them over forty four black skins
 together with Land furs & 40 Laid. ^{Primes} Amur

13 Begins with fog heavy rain & wind a number of natives on board
 but no trade selling bills scolding about how low & e o
 Ends the same as usual in this place rain & fog

14 Commences heavy rain & fog no natives on board
 closing the accounts as yet paid something in the wind about no
 Division for the future. as however agree King
 this day One Year from Boston W & D O'Leary Denver

1822

Brig Rob Roy on the Coast

Sumgaps
Aug 15th
1 Year from
Boston

Begins with a thick fog and light rain at noon clears out
+ calm at night fog & rain no trade to day.
The storm which was expected was gathering burst this afternoon. The wind
the division of skins is broken up for particulars see my Memo Book

17 Begins with a good breeze from the Northward and clear
at 4 oc in the morning the Ship Hamilton got under way
and proceeded on her homeward passage the division which was
broken up yesterday was today arranged and the division is to
continue. At one oc we were up in company with the Suttan & Whyher
& Lascar (the Georgian sailed about 8 oc) and proceeded out of the
harbour after clearing the passage the Lascar was about 5 miles
ahead of us & the Suttan; and the Whyher about 2 miles, when we
saw her all aback and soon found she was aground on the
sunken rock soon after Capt James came along side and said his
vessel was on a ground on the top of the rock and must soon split
into. immediately wore ship together with the Suttan & came to anchor
about a mile from him the Lascar also returned and came to
Anchor sent all the Boats, & spars &c. but the tide falling fast she was
at 6 oc with her keel out of water and laying on her Larboard side
at the boats bringing off goods to the vessels. At 7 oc found she would
not slide off and would probably float ^{at high water} but unless the Lascar & Suttan
not being in a very safe situation we went up & went up to the
harbour of Cockburn and came to anchor & sent the Boats, at 12 oc
at night the Brig floated and came to Anchor, having about
a fathom of her keel out & other ways materially damaged
I have often heard Seamen speak of the distressing sight of a
vessel being ashore but I never believed it before & my feelings
are better imagined than expressed.

18 Commences with light breeze from the North and pleasant
the Whyher beat up to the upper harbour and came to anchor
at 11 oc at 1 oc the Lascar got under way for Chatham Straits
at 6 oc light breeze from the S.E. we were up but the breeze dying
away swept into the Harbour of Sumgaps in Co with the Brig &
Suttan and at 10 at night came to anchor

19 Begins cloudy & cool at noon showers of rain with fog
at noon the Whyher landed ashore at 6 oc high & Dryan carpenter
repairing her no trade to day

20 Commences pleasant and warm but no trade the Brig still
ashore repairing a number of Chucknaw or Charsena Indians
along side of the same stamp of the Rigaian tribe

of North West America

Turngaß
Aug 21

Begins with stiff breezes from the NW & Clear painting the masts & the Owhyhee yet ashore no natives along side of boat no trade ends pleasant.

22

Commences pleasant & warm last night the Owhyhee hauled off employed painting the vessel & but few natives on board and no trade

23

Begins cloudy with fog and cool no trade and no Indians

24

Commences with rain & fog & fresh breezes from the SE and cold bright skin to day and caught plenty of Halibut Cod &c &c and with heavy rain & fog

25 & 26

Then two days past we have been doing nothing no trade in fact with pleasant weather - expect to sail tomorrow NB to whom it may concern something in the wind! 26 this afternoon the chief Keacost came on board & is going a trip with us. he is a great drunkard but the cleverest Indian on the coast

27

Commences pleasant & warm light breezes from the South the Sultan & Owhyhee warped out in the entrance of the harbor, Capt James I understand to day has withdrawn himself from the Division - and says he is going from the North - very good - but I am not very much mistaking there is some foul play a going on

28

Commences with rain & thick fog wind at South East & continues throughout the day no trade & no natives

29

Commences with light breezes from the North with rain & fog at 5 oc unmoored and with the Sultan & Owhyhee after getting under way becalmed the two other vessels being lagging further out took a breeze and got out of the Harbor but we did not clear point Percy until 12 oc & the other vessels about 6 miles ahead at 4 oc passed the Sultan & Owhyhee at 8 off Cape Henry moderate breezes from the SE & cloudy headed for Keygarner wharf Capt

Keygarner

is going to put his girl ashore

30

Begins with good breezes from NE & Clear beating into the Harbor of Latta Key in C. with the Ship & Owhyhee at 10 oc came to anchor Capt Conson "I was a damn fool for coming with a bill of Lading in that way" you would not be in no good a situation but out of regard to your connection with the firm you do not promote the firms interest. - Agew Kisket Esku Cigew Kisket Cigew O-eyc ends rainy & stiff breezes

Brig Rob Roy on the Coast

2nd
 Aug 31st
 P

Begins calm & cool at noon fresh breezes from the S.E.
 & cloudy a number of natives alongside but no trade for
 animal with this tribe W. saw Harger

1st
 Commence, & ends with a thick cold South Easter
 heavy rain throughout the day; no natives on board
 Keacoot this day got the principal Enos most pitifully drunk

2
 Morning calm & cloudy at 11 Light breezes from the S.E. and
 heavy showers of rain a number of natives on board but no
 trade Keacoot Drunk, ends heavy showers of rain and appearance
 of a Westwardly wind

3
 B'gins calm & cloudy At 8 oc the Whyper towed out
 of the Harbour bound (says Capt James) for — to the North
 of Norfolk Sound; but Eugen Phargu to the ~~passage~~ between Henegau
 & Stikene at 3 oc light breezes from the West here up Riv. Co. with
 the Suttan & proceeded out of the Harbour at 8 fresh breezes
 from the S.W. Cape Barry bearing N.N.E beat the ship out & out

4th
 Begins fresh breezes from the S.E. & Cloudy to the Nth
 West of Pt Row at 10 oc Weathered the Point at 11 observed the
 Suttan byer away for the point & we followed him ^{round} at 12 oc
 spoke him Capt C said he should steer for the North (in N Sound)
 and accordingly kept away thick & foggy standing for Mapet
 at 4 wind haul to the West got caught Sabuck wore ship to the
 N.W. at 5 past the suttan standing to the East for pt Rose 1/2 past
 5 wore ship to the East at 6 doubled the point again stiff breeze
 from the West with squalls of rain at 7 more moderate standing
 for Shudegat In the morning, ran the rock off (Pt Row)

5th
 Morning Begins with light breezes from the S.E. ^{off Cape Bald} ^{in S.E. clear}
 during the forenoon light winds from all parts of the Compass
 & making but little head way in the After noon showers of rain
 and light flairs of wind at 4 Calm about 3 miles from the Bar
 of Shidegats out with sweeps and at 7 a little outside of the Bar
 saw the Suttan standing out & a little air drawing out & left
 side we also stood out and at 1/2 past 8 came to anchor out
 side the bar & about 1/2 miles from shore in 5 fathoms hard sand
 bottom (the ship had come too before us) breeze calm & pretty clear
 weather moderately warm

6th
 Begins light breezes from the West at 1 AM here up in Co. with the
 ship day light nearly calm & during the forenoon light breezes from
 all parts of the Compass at 12 crossed the shoal water in 5 fms from that
 to no sounding at 1 oc W. fresh breeze from the West tacking ship & making
 the North and at 12 oc came to anchor in 13 fms.

of North West America 1822.

Shidegrates, Begins with fresh breezes from the S.E. showers of rain & fog
Sept 7th a number of natives along side but no trade, only 1 Red shirt
I bought & gave too much for, as they say, the natives say they have
no skins & Cozen Skyns Good Kenoy

8 Commences with stiff breezes from the S.E. but with
fog & rain no natives on board in the forenoon -
Afternoon the wind the same no rain & along a few natives
on board but no trade

9th Begins with fog & showers of rain few natives on
board no trade ends heavy rain & as usual accom-
panied with fog

10th Begins cloudy & cool during the Day stiff breezes from the
S.W. & a little rain

11 Last night heavy showers of rain & stormy cloudy & cool
no trade but in Potatoes at night an affair happened which
reflects great credit on our vessel about 8 or 9 o'clock dark & cloudy
a canoe came along side & the good folks thought they heard a number
cried & an Indian landed, one according to him promises got
one of the aboard and kept him all night & heard of 4 men & a
se of &c the fellow said they (the Corvett Indians) were at war
with the Shidegrates Indians and he was afraid which is true enough

12 Begins cloudy & in the afternoon light showers of rain
no trade and they have nothing to sell but potatoes 6 barrels
bought

13 At 5 o'clock this morning got under way in Co with the Sultan
with light winds from the West after getting nearly up with the bar
we were becalmed and the remainder of the day light & variable
winds & did not get clear of the Bay until 4 o'clock then a breeze from
the S.W. and fresh breezes from the S.E. & dark & cloudy

14 During the night packing ship from West to East commencing
commences calm & a very thick fog at 9 light breezes from
the S.E. at 10 pretty clear in the afternoon fresh breeze from S.E.
at 2 took in Spencer & Co. Sail and the Ship who was astern
came up to leeward took up a little sail wore ship to the
N.W. without saying any thing at 4 fresh breezes made the land
ahead (near Sebatius) but could not ascertain our situation on acct
of its being foggy saw breakers on shore wore ship to the S.West
at 8 dark & foggy light winds from S.E. under short sail

Brig Rob Roy on the Coast

Sept 15th

Begins moderate breezes from the S.E. & foggy at 10 o'clock. Ship to the East at 2 P.M. heavy gales from S.E. were ship to the S.W. and close reef of sails & Housails & Tysail sent down Top Gallant & Royal yards during the afternoon heavy gales & a bad sea but I heavy squalls of rain & wind and so foggy nothing can be seen

16th

During the night heavy squalls from S.E. & rain morning pretty clear but cloudy no land at 11 p.m. were ship to the N.W. set whole fore sail & let one reef out of the Sails soundings irregular & a heavy sea at 1 p.m. 3 saw the Land near Pt. Rose bearing S.W. set reef Tysail and hauld up to the North & East but I moderate breezes from S.E. took in Tysail & all sail

17

During the night under short sail to the North of Charlott. Lt. at sun rise saw Cape Clarry bearing about N.W. made sail for it with moderate breezes from S.E. sent up Top Gallant yards at 9 Puffed for Cacklans and at 12 Came to Anchor. Fresh breezes soon after coming to anchor it began to blow in squalls very heavy and in the afternoon ~~moderate~~ heavy gales (in squalls) from off the high land. ^{in which winds} sometimes the water is all of a foam & the wind takes the water up 70 fms Chain Cable out, even to the same

Tungah

18

Last night until 12 o'clock very heavy gales from the S.E. with rain. Morning commences nearly calm & during the day moderate breezes from S.E. with showers of rain but few natives on board & no trade. A coast & his family sleep on board to night. This last cruise has been bad enough. we have not collected five skins & have had a devil of a banging. the sailors bought some skins at Skidegate, but we did not go on board to get them

19

Begins moderate breezes from S.E. with light showers of rain at 12 o'clock it began to freshen and at 2 it blew in squalls most tremendous. Heavy let go the Stream of anchor and at 3 o'clock let go the Port Bow with the hump gable for the first thing ^{the voyage} at 4 more moderate & the wind hauling to the East this has been the strongest wind I have seen yet

20

Commences with light breezes from the S.E. cloudy & light showers of rain afternoon pleasant but cloudy & a little trade 5 p.m. ends calm & cloudy

21

Begins calm & cloudy during the day light breezes from the S.E. no trade ends calm and light showers of rain

of N.W. America Anno Domini 1822.
Tumgal 22 Begins calm & cloudy & cool a number of Indians on board but no trade and calm & pretty clear

23 Commences light air from the North and clear in the afternoon light breeze from South East with rain & fog but few natives on board and no trade except long board drunks

24 Begins light wind from the S & Eastward with rain & fog no natives on board one but Keacoot & Cheri afterwards the same as usual rain & fog and when it will end is more than I can tell.

25 Begins fresh breeze from the South East and cloudy but during the day no rain but few natives on board and a trade of two Skins. and wind in the old quarters

26 Commences with fresh breeze from S.E. & heavy rain and continues the forenoon at 12 oc the wind shifted to the North with rain & fog at 4 pretty clear at 8 the old thing again heavy rain

27 Commences pleasant & cool and continues throughout the forenoon; afternoon showers of rain and ends rainy took a man (native) on board to day with 5 Skins for a cruise he is to give one for his board he says his name is Mr Carpenter. this 4 days past we have had a fire for the first time the voyage went ashore to day for about 3 hours

28 Begins Calm & Cloudy & cool but no rain at 9 oc light breeze from the N.W. & continues through the day. this has been the only chance of going out since we have been in the Harbour no trade to day & but few Indians as they have all gone to Napa to trade

29 Commences calm cool and a little rain at 10 light breeze from the Southward and pretty clear no trade and no Indians ends wind S.E.

30 Begins with very heavy gales from the S.E. with rain at 8 oc let go the Steam Anchor at noon the swell leaving into the outer Harbour caused a very high tide and came very near floating off Jones house on the point in the afternoon moderate and nearly calm a canoe came in towards night with Keacoot & Cheri who came on board

Brig Rob Roy on the Coast

Tumagal
Oct 7th

- 1 Begins calm & cloudy during the day showers of rain and moderate breezes from the S.E. few natives on board Ends with heavy showers of hail & rain & wind S.E. East
- 2 Commences calm in the forenoon light breezes from the S.E. & showers of rain in the afternoon fresh breezes with rain & ends calm cloudy showers of hail
- 3 Begins light breezes from S.E. and during the day torrents of rain and variable winds no natives on board
- 4th Begins pleasant with light breezes from the North at 3 in the morning hove up the Stream Anchor & at 7 the Small Bower got under way but after sweeping a short distance took the wind from the South and were forced to return again at 11 came to anchor; in the afternoon light breezes with showers of rain from S.E. & from dark to 9 o'clock heavy breezes from the same quarter let go the Stream Anchor N.B. in the afternoon got down J.G. Yards
- 5th During the night heavy Gale from the S.E. and morning commences with the same. as we found she had drifted some at 8 Gale freshens let go the best bower and from 9 and hove a Top Gallant Mast from 9 to 12 the Gale increased to a hurricane, the Brig still drifting ^{with 3 anchors ahead} sent down Fore & Main Yards. at 1 o'clock the vessel was very near the shore and must inevitably have gone on had not the Gale moderated in the afternoon more moderate but very heavy squalls. ends the same, in the forenoon the wind blew in whirlwinds with heavy showers of rain & with a pretty heavy swell the wind took the water up & blew it in sheets so that it resembled a snow storm & in the squalls the men in the tops could scarcely hold on.
- 6th During the past night stiff breezes until past 12 o'clock at 1 past 5 hove up the anchor and warped the vessel over to the place where we anchored before During the day light breezes from the West and pretty clear went on shore for about 3 hours. The natives say that yesterday the gale was as strong as they ever knew it although within musket shot of the vessel they could not see her owing to the winds blowing up the water Captain Dick

of North West America AD 1822.

Sumgatz
Oct 7th

During the night (fore part) moderate breeze from S.E. & pretty clear latter part breeze freshens to 1/2 part 3 let go the Stream Anchor, morning commences with stiff breeze and at 10 heavy squalls from the S.E. let go the Best Bower Anchor at 2 very heavy squalls with rain; sent down Lower Yards ends heavy breeze & raining

8th Commences with strong breeze from S.E. with rain which continues throughout the forenoon in the afternoon more moderate hove up the Best Bower Anchor ends nearly calm & cloudy

9th Begins light & variable winds which continues throughout the day with light showers of rain went ashore & killed a partridge ends calm & cloudy

10th Commences calm & pleasant at about 10 oclock we had a bit of an alarm, ⁱⁿ the outer harbor the weather was pretty thick and ^{the} Capt thought he saw a fleet of canoes and the alarm was given, the natives ^{of these} all left us - went on shore brought their wives children & now saw furniture & along side but the weather clearing up it proved to be a ledge of rocks, on the Starboard side of the passage in entering Cocklanes. Afternoon moderate breeze from the S.W. & clear

11th Begins Calm & cool & during the day light breeze from the South & pleasant no trade went on shore killed nothing & dug some clams

12th At 4 o'clock this morning hove up the anchor & got under way with very light breezes from the North but after getting to the narrows took the wind to the South and were obliged to put back & come to anchor in the forenoon I went on shore & return at sun down, I found the Bojig gone; before that had heard a gun at dock reach the ship and found her be calmed & coming back at about 1/2 part 7 came to anchor but not in the usual place, at 1 hove up with light breeze from the South hove up & towed her into the usual anchorage. ends calm

13th Commences calm which continues throughout the day no trade nor has not been this ten days, four a small ship of this tribe arrived to day from Pearl Harbour ends pleasant

14th Begins calm & during the day light variable breeze a number of natives on board but no trade ends pleasant & calm

1822 Bridge Rock Row on the

Sumgatz
October 15th At 8th last night sent down for Gallant yards calm
until two o'clock fresh breeze from the S.E. let go the Stream
Anchor morning fresh breeze with rain at 11 heavy squalls
of wind & rain found the Brig drifting very fast let go
the Best Bower carried out for Reddy and above the Stream
anchor & found it foul soon after hove up the Small Bower &
found that foul also cleared it & let it run during the
afternoon more moderate the day steady rain - ends the squalls

At Sea

11th Morning commences calm, foggy & cloudy At 8 light breeze
from the N.W. at 11 part of pretty clear look up & got under
way and at 12 abreast of Point Percy fresh breeze from the
West in coming out of Sumgatz passed to the West of the
low low rock pretty near at 6 o'clock abreast of Cape Henry ends
fresh breeze & clear day.

17th During the night at 10 o'clock made a tack towards Cape Henry
at day light pretty well over having gone faster than we
thought for. bore away for Pt Rose set Lower Studding sail
Top mast & Top Gallant Studding sails at 9 passed Pt Rose
(saw the Breaker of it very plain - it is a Land Hill)
with fresh breeze from the West at 3 in the afternoon made
the Island of Bonilla at sun down in the mouth of the
Canal. after running a short distance up we were nearly
be calmed & being pretty dark had to feel along. a canoe
came along took one Indian out to show us the way at 8 light
breeze from the West ran into the Harbour & came to anchor
in 15 fms good Bottoms - Ample business

Sebastien

Oct 18

Morning commences ~~fine~~ but with a very thick fog
so dense that we could not see the shore although but a few
cables length from it. afternoon pleasant & warm no trade as
there were no Indians here; but are coming in fast and pleasant

19th Begins with a thick fog & cool middle & afternoon
pleasant & warm a number of Indians along side
and a brisk trade in fur. ends calm & pleasant 25 Skins

20th Commences pleasant & warm a number of Indians
along side & a brisk trade in fur 46 Black Skins & 2 fur
Sebastien the Chief not here yet

21st Begins pleasant & clear & the day very warm for the
Season the Indians most of them went off having fin-
ished their trading. some trade 12 Skins ends pleasant

22nd Begins cloudy & cool but few Indians on board and
a little trade 10 Skins & some few Beaver through the day
cloudy in the afternoon the Indians all left us
at this place we have collected 93 Black Skins & have
given but 5 fathoms of our wools

Coast of North West America 1822

Oct 23rd Commences cloudy & cool with moderate breeze from the NE no Indians in sight 1 day. Afternoon heavy breeze from NE with heavy squalls of rain two anchors ahead ends strong breeze and strong

24th Begins with moderate breeze from the North & cloudy in the forenoon fresh breeze from SW with light showers of rain which continues throughout the day two or three Canoes alongside of Sebastian the Chief of little trade. 5 skins

25th Commences with stiff breeze from the NE with fog & rain which continues through the day and ends the same no trade & no Indians.

26th Begins moderate breeze from the N.E. with fog and continued rain through the day no trade and but three or four Indians on board with Sebastian the Chief - half drunk ends heavy rain with fog two anchors ahead which hold on.

SEA 27th At 1/2 past 7 this morning hove up the two anchors and got under way with moderate breeze from the NE at 9 o'clock cleared the Canal & took stiff breeze from the SE. with fog took in all sail. Spruce & Top Gallant Sails at 11 o'clock moderate - standing for Skidegate at 5 o'clock made ahead the Land, and the southern point which forms the entrance haul up to the North West - foggy at 6 took in Top Gallant & Foresail. I don't expect to the East off shore. Last night had a melancholy dream if it prove true - dream that I was at home & saw Mr. B - in very sick

28th Commences with moderate breeze from the NW foggy at 8 Clear (by the way during the night took ship to the West) found ourselves to the North of Skidegate about 10 miles at 9 passed Skidegate's Bar with light breeze from the West East at 12 Came to Anchor. Afternoon pleasant but few natives along side & little trade. 2 primes of old Chuk

29th Begins calm & foggy but during the day very light variable breeze & warm. Bought 1 prime, went along side but we stand for 4 fathoms ends pleasant & calm

30th Commences with ~~moderate~~ calm & cloudy. Afternoon moderate breeze from NW with heavy showers of rain no trade & but few Indians on board

TS22 Brig Rob Roy on the

SKITEGATES, S.
October 31st

Begins with light winds from the NE cloudy and showers of rain during the day a few natives along side & a little trade 4th primes - ends tolerably pleasant a bit of a row to day amongst the sailors

November

1st Begins pleasant & cool but few natives on board and scarcely any trade 2 skins & in fact they have got many - at 4 light showers of rain & cool wind NW

2nd Commences pleasant but during the day light showers of rain. some snow fell last night on the mountains but few natives along side & but little trade 4th skins ends pleasant & clear

3rd Begins & ends with heavy showers of rain & fog but one canoe along side - purchased 3 skins

4th Morning & forenoon rainy & fog, afternoon cloudy & cool but few natives along side & checks no trade but in potatoes

5th Commences with rain & fresh breeze from the SW but few natives on board & no trade ends heavy rain 4th skins from Boston

6th Begins & continues through the day heavy showers of rain a few natives along side but little or no trade ends pleasant a young man Marsh from Capt Clark had a fit this evening

7 & 8th This 2 days it has been as usual Wind variable with showers of rain and no trade & but few natives on board

9th Commences moderate & clear in the forenoon Cloudy & showers of rain Afternoon heavy squalls of Wind from the S.E. & thick foggy ends the same

10, 11 & 12th These three days past it has been alternately sun shine & rain the weather cool & no trade & but very few natives ^{this day discovered our small anchor by some means had come home. hove it up & found it clear and let it go again}

13th Commences with stiff breezes from the S.E. with fog & rain in the afternoon heavy squalls from S.E. with fog and something of a swell ends the same

Coast of N. West. America AD 1822
Queen Charlotte's
Island
Shilegutes,
Nov^r 14 & 15

These two days past has been mostly fog & rain
with but few natives & no trade B ends light breeze & pretty
clear

16th At 9 last night fresh breeze from the East with heavy rain
at 11 o' very heavy squalls from the East with rain kept down
top Gallant & Part. & Lower yards at 3 in the morning
a very squall struck us & we the Brig struck adrift and
brought the stream anchor which we were moored with
along. let go the Best Bower; moving nearly calm. hove
up the Best Bower & stream anchor. found the stream
anchor foul with a half turn round the stock & a turn
round the flenk with the small Bower, during the day
light & variable breeze with heavy showers of rain at 3 o' o
moored ship again with the stream anchor under cloudy

17th 23 This week past it has rained every day. during this time
Old Chicks has been on board to purchase Snow Low having
lost all he bought in the gale that send down our Lower Yards
we have not bought but one skin in this time 23 ends with light
spots of snow for the first time the season & pretty cold.

23rd 30th These past days have been colder than we have had it
this winter but no snow as yet. 23rd this day an affair happen
that I shall set down for my own gratification. a fellow wanted
a keg of Powder and the Capt called for one I handed it up
and he asked me if it had been fixed I told him it had
he said he did not think it had. & again told him it had.
he soon it had not. I should not contradict him. & I that
he would make me walk. I told him when I knew a thing
I should contradict him. or any body else. I opened the keg
and he was convinced it had been fixed. & some taken out
we must have a talk about walking yet. I must know what it is

December
1st & 2

The month commences cool & cloudy light breeze
from all points of the compass 2 light rain with
fog. The past twenty fifteen days has been the pleasantest
weather as to the wind that I have seen on the Coast. it has
been almost calm the whole time we have bought but few
skins during the time & these fellows are the hardest
to deal with of any on the Coast but have been partic-
-ularly so since we have been here this time. the Chief
Carter Connor is a fool & a boy in his disposition & ^{completely} in his
corporeal listless. Long nights & short days & varying weather
people tired & jealous of each other & so on & so on
this begins the month

1822

Brig Rob Roy on the

December

Sea

At 11 o'clock this morning unmoored & got under way with fresh breezes from the Westward & clear moon light weather at 7 closed the bar in six fathoms during the day light breezes from the S.W. & pleasant. at 11 cloudy. Wore ship to the Westward Bonella Island bearing E by N distant 3 Leagues. ends light breezes from West & clear to day saw a sea otter. In coming out of the harbour this morning we had soundings but twice - first getting up with the Bar - first sounding, 3 or 4 fms 15 & 13 fms after passing the Islands a little below the Islands. the next 6 & 7 fms two fms below Culer point. we kept after passing the Islands over to the East and then stood to the West to the Sand hill & closed the Bar in 5 & 6 fms water

4th

The fore part of last night pleasant & light breezes from S.W. at about one the wind shifted to the S.E. & blew very heavy attended with rain & very thick fog double reefed the Tysail ran down Top Gallant Yards. Close reefed the Top Sails & fore sail at 4 wore ship to the N.E. and took in the Tysail morning commences dimmed enough blowing a gale of wind a very heavy sea & thick fog and our situation not exactly known at 10 o'clock saw a rock & breakers bearing East which prove to be to the West of Stephens Island wore ship to the West at 3 P.M. & clearing up a little saw the rock off pt Ross bearing South distant one mile & Keacock hill S.P.W. at 7 light breezes from the S.P.W. & dark dismal weather Course West during the day sounded and off Stephens Island 30. 25. & 45 fms had sand from the rock off pt Ross steering to the West along the Northern point of Dunn Charters Island no soundings with 60 fms line in the forenoon parted our Larboard m. Top Sail Sheet

5th

During the night Light breezes from the S.W. and pretty smooth at 3 o'clock the morning heavy gales from the West kept us under close reefed Top sails & reefed fore sail very thick & foggy at 10 o'clock a little clearer made the land and at 9 o'clock it to be Cape Cherry made sail the wind moderating but still a very heavy gale at 12 noon moderate sent up S.P. Yards and Cape bearing. I kept away North for Sun gap. and soon after made Cape Northumberland at 3 passed pt Percy with light breeze from the West at 4 passed the Rocks in the passage & after four or 5 fms the wind blowing fresh from the West to Anchor in the outer Harbour. or Backwaters, in tacking ship our gib flew to pieces the foot rope parted. by a canoe that came along side we are informed that Capt Clark is in Sun gap ends light breeze from the N.W. & clear.

Coast of North West America

Tumguss
Dec 16th

At 10 p.m. last night fired a gun which was answered by a vessel in Tumguss as soon after Capt Clark came on board at 2 in the morning calm blew up and swept up to Tumguss and at 5 came to anchor at day light stiff breeze from the North & East with fog. I saw no Indians on board and none here having all gone to their winter villages by Capt Clark we learn that the Brig Frederick Capt. Stilson left here about 14 days since having about 120 skins on board (the season he left Chatham Strait, I must say) and left Chatham Strait about a month since Capt Harris says Capt Clark arrived from Norfolk Sound two days after we left here but he brings abundance of news. And it is the first since we have received since we have been on the Coast and of such an important nature & variety I shall insert it. Capt Clark states he ^{saw} at the Sound Capt Clark in the Brig Arab bound for the Islands laden with timber to repair the Brege and the Brig Pearl commanded by Capt Stephens (a notorious kiler I saw at the Islands & by all accounts a and certainly a man of no kind of information) and formally commanded by Capt Chandler (who commanded a privateer in the war) who sailed from Boston in her in Co. with the Franklin 74 in June last and left her at the Islands and gave command of her to Stephens that Capt Chandler shot two men dead on board the Brig on the passage out for mating and set some ashore at the Gallapagos Islands &c. that the Carpenters of the 74 are a building three Schooners at — for Capt Chandler. the Brig has a cargo for the Coast but it is uncertain whether he comes or not as Capt Stephens is trying to rec her at the Sound. The Quill (Brig) had arrived at the Islands & her cargo has been all spent by Capt Davis. Sander Wood brought 89 in Canton (Good) Skins \$40 (good but more is necessary to make a voyage). The Ship Tartar Capt Bursley had returned to the Islands and taken a cargo of wood & sailed for Canton. Capt Suter had left Canton & the Ship Illentor. Jas Sturges had hired a paperman to go in her on account of Capt — All business had been stopped at Canton for two months on account of a Chinese woman being drowned by fright from a stone jar which was given her by a man on board a N.Y. ship who was going to give it to her over the ship's side she being afraid of its falling on to her, in getting out of the way of it fell overboard & was drowned. the Chinese demanded the man but the Capt would not give him up. but the Chinese saying they only wanted to examine him he went ashore; they took him off & strangled him

1822

Frig Rob Roy on the

Turngate the Ship Ocean was struck on the bows by a sea off Cape Horn and immediately went down & every soul on board of her, the ship Ontario is also lost. the doubtful part of the above news must be considered Sandwich Island stories is 2/3 lies: that an hundred sail were at the Islands at a time the Brig Pearl belongs to Baker & Sergeant N. Central Whp and I think they will not fit out another West man if Mr. Stephens keeps in their employ a long time. In addition to the above news we learn that an English Frigate had fired upon the Chinese and in consequence of which all the English vessels were obliged to leave Macao. The ship Hong Kong had arrived at the Islands from Columbia River. That the ship Pachem was fitting out for the Coast. (lies)

7th Begins with stiff breezes from S.E. with fog & rain during the day heavy gales from the same, & a great deal of rain. No Indians on board, one passenger left us yesterday. No sun. Windy ends rainy & more moderately.

8th Begins tolerably pleasant in the afternoon showers of rain & stiff breezes from S.E. at about 10 oc a man fell over board from the ship Sultan & was drowned. 9th morning pleasant afternoon rainy found the man that was lost & at 12 oc buried him on shore early pleasant. Capt Clark says the Sch Jan Martens, Capt Pickett is lost having sailed from the New discovered Islands to the South off Nophog and never afterwards heard of. Mr. Conant was to leave the Islands in the Hong Kong on account of some difficulty (Loyal)

9 This day is the first one that in which we have had a snow storm which fell in heavy squalls during the day & continued all night much thicker in fur

10 to 21st Has been the pleasantest weather the whole time that I have seen on the Coast clear and cold. the 20th I went on shore and killed a deer. the same day a gun was heard off the entrance of the Harbour. the Boats went out and found it to be the Brig Frederick Cape Hudson from Ulapeto & Thigarnes. he did not come to anchor but put about for Sticksen. Since we have been at this place this time we have collected 21 Black Skins a number of the Sticksen Indians on down but have not many skins

Coast of North West America 1823

Turner 21st Decr. 30th The past ten days has been generally pleasant clear & cold except two clouds & rain but few of the natives on board and not much trade. shot an Eagle 7 feet across the wings, joining this bird I have number 24 years of age

January 1st 1823

The new year commences pleasant but cold. I suppose this will be as this generally is a good many remarks made at home on the commencement of the new year & I have this one to make that I shall not see the next one in this part of the world to send a young man here (to coast) that is a ~~brave~~ poor drunken devil is perhaps well enough for as the saying is it will either 'kill & cure' but I am not one of that stamp yet although if I remain here long I will not answer for it. - in truth a vessel on this coast is a perfect hell to any person that is any way peaceably inclined for the grumbling of crews (who ought to be shot) quarrels between the officers jealous of others and an hundred other things make it bad worse than at sea. I have had but little but the Bryant blood is in me and to be insulted & submit to it turnely cannot be done advice is seldom well received or productive of any good. It is seldom well received because it implies a superiority of judgment in the giver, & is seldom of any service to the giver because it more frequently makes them an enemy than a friend, & is seldom to the receiver because if he is not wise enough to act properly without it he will surely be wise enough to distinguish that which is good. - clear

Capt. Hutson arrived here in the Frederick to night beat through the passage the Putnam is still here. I understand the Frederick lay in Luck-et-same about a month for ~~the~~ girl 15

----- I folks that have been in the division and sold part of their cargo at St. John's sound & lay there three weeks & have been in port 2 months or more complaining of our not cruising - & the cursed division

1825 Journal on board Brig Rob Roy

Summers
Jan 2 to 4

The 2^d of this month pleasant & cool the 3^d more mild with a squally wind & cloudy in the afternoon fresh breezes from the SE & a thick snow at about 9 in the evening the wind hauled round to the East and blew in heavy squalls at midnight it blew a heavy Gale at 2 OC in the morning we parted our small Chain Cable & lost the Stream Anchor. we brought up with the large Chain cable immediately let go the best Bower anchor at 10 sent down the Fore Yard at day light struck a drift but fetching a little strain on the Best Bower checked her morning commences with very heavy squalls from SE to NE & squalls of snow ^{sent down fore yard} which continues throughout the day at night wind more steady ^{but} blowing hard

5th Jan 4

During the night the same heavy squalls and until eleven o'clock ~~and~~ then moderate hove up the Best Bower & tripped the Larboard bower anchor made the Larboard fast to the Ship. Suttan and myself ~~or~~ up to our old anchorage and dropped the Larboard chain anchor ~~and~~ made a grapple and dragged for our lost Anchor got hold of it the first time got it in board and repaired it without starting the anchor. ~~the~~ the devil to pay about what other folks think & say ends moderate

St. 12

During this time it has been almost continual gales of wind from the SE with snow the eleventh hard gales from SE with snow & rain towards night the gale increased & at 12 in the night struck adrift and went foul the Brig Frederick that was moored astern of us; but they giving her more cable did her no damage let go the Best Bower anchor but could bring no strain on it on account of the Brig being so near at 6 ~~the~~ very heavy squalls from the SE & carried away her mizzenmast. she got out of the way by sheer in shore & letting go another anchor. during the fore noon it blew almost a hurricane and at 12 suddenly died away almost calm hove up the best bower ~~and~~ without any strain as the chain of the other cable ^{had slipped} tripped it ~~at~~ & it held no hold the Frederick found our small chain foul of her cable and cut badly in one place by our ruder ends moderate to with squalls of snow strong squalls & showers

on the Coast of North West America 1823
 Jamgarse
 Jan^y 14th
 1823

15th heavy gales of wind from the East S.E. with rain & snow 14th commences with the same at 3 in the afternoon the wind haul to the West with light breezes, hove up our large chain and carried out the Redye & dropped to nearly our old anchorage at about 4 o'clock the Brig Fredrick hove up &c but owing to something or other run foul the Ship they carried out a Redye & warped off and got under way. A B his sailing was wholly unexpected to us and we know nothing of it although we are in the division of things but is probably Capt Clark's plan and I think it amounts to a close of the division. the cause of this is probably arises from some difficulty between Capt C. & Clark as it would puzzle a wiser head than mine to understand the cause of it

15th morning commences moderate with the Wind S.E. with snow. Hove up the small anchor and dropped it in softer bottom. soon after heavy breezes from the Eastward wind increasing dropped the Best bower anchor at 3 o'clock. morning hove it up at 5 o'clock haul round to the N.W. with heavy breezes. and as we found we had drifted a little in the forenoon. dropped the Best bower anchor for fear of drifting foul the Ship which she is astern of us and pretty near ends a thick snow storm & more moderate

16th Begins with light air from S.E. & cloudy at 7 o'clock hove up the Best Bower anchor during the day moderate & pleasant at 5 o'clock the Brig Fredrick came in having run ashore to the North of Cape Henry in the Gale the 14th but did her not much damaged ends thick dirty weather with squalls of rain & snow

17th 18th are as usual squalls of snow & hail 17th the Brig Fredrick haul ashore having damaged her copper considerably injured her keel a little, a judgment upon her supercargo 18th Ends with pretty cold weather & clear

19th to 30 during this time it has been snow & rain excepting the four last days which have been warm & pleasant on the 27th the Fredrick sailed again without a division. to day bought 6 Black Skins the Sultan has been getting her new spars up & to day bent her sails and I think it about time

1823 Brig Rob Roy on the Coast

Sumgaree
Jan 30 to Feb 7th

The past week has been clear & moderate without rain or snow. some trade in furs a number of the Casarue Ribs arrived here a few days since and some of the Stichen Ribs. & more expected to. Meacost house warming. NB Capt Clark told me the day before yesterday that he should give a fathom more for skins than we should let the number be what it would. if the and is giving his fathoms here if he gives 7 fathoms he will have none of our skins with my consent to say took on board a fellow from thicken to go a cruise with us - he has 5 skins which if the above takes place is an object

I Commences pleasant & ends the same as it regards the weather but the following circumstances appears not quite so favorable about 2 Oc our man ~~that~~ was on board Capt Clark's ship came on board & said Capt Clark told him to come "Buy & Buy again" but afterwards told him to come & see what Capt Croft said about his coming aboard - Capt Croft told the young man to tell Capt Clark "if he was disposed to end the division he might send him aboard as soon as he pleased" he accordingly went & soon returned with bedding & said Capt Clark told him to be off and it was what he had been wishing for this some time. This is what I expected some time ago I am very glad of it as it ~~not~~ puts some cash in my pocket & will be better for the owners & the cruise Division I was always opposed to it

4 & 10

These two days pleasant & clear and considerable trade in Land furs the Luttans have up one anchor to day and got out a Reddy to the Westward - in hopes we should do the same I supposed but was mistaken 2 P 16 P Breeze

11 At 4 oc this morning hove up our two anchors and cast out the Reddy and got under way with light breezes from the Nth the ship having unmoored last night had the start of us but did not begin to leave before we did. Owing to light & variable winds we did not get through the passage of the lower rock which we passed to the West of and becalmed with the sweeps to keep her off shore as this was the strongest tide I ever saw at this place at 3 took a breeze from the S.E. & cloudy made this tack found we could not do much and passed it very near after getting up to the entrance to Sumgaree and at 7 oc came to Anchor and light breezes from the N. & Cloud

of North West America D 1823.

- Feb. 12th Begins with heavy breezes from the N.E. and cloudy squalls at eleven at night heavy squalls from the N.E. and pretty clear. In day the Carpenter went ashore & in making a fire set the Woods afire and it is running up the Mountain pretty rapidly. Prime
- 13 During the night heavy breezes from N.E. to East in squalls at eleven at night struck all drift & brought up with the small Chain Anchor after drifting a considerable distance during the day the wind not steady enough to attempt to get under way a few Indians came over & sold some furs & a few more Prime this day brought too with the hemp cable for the first time
- 14 Morning commences with very heavy squalls from the N.E. with thick snow which continues till forenoon but the Boat anchor down do not drift Afternoon the wind more to the South with rain in squalls ends more moderate.
- 15 During the day fresh breezes from the S.E. & a very thick fog and rain no Indians on board but one our passenger a Hicken fellow who is going a cruise with us. Thus 5 skins ends foggy and calm
- 16 Morning calm which continues till forenoon with rain afternoon better part heavy squalls from the E. to S.E. with heavy rain a number of natives on board & some trade (5 Whicks) in this morning as a Smoked Fish as it is dead and they are going to have a blow out ends very heavy squalls from S.E. with fog & rain
- 17 Morning commences with light breezes from the N.W. & cloudy at 12 oc leave up and proceeded out of the Harbour at 2 oc about of Point Perez fresh breezes from the N.W. ^{which continues} during the afternoon at 4 saw two Sail a brig & ship to the West supposed to be the J & H and appear to be from Kigarnet at 7 oc a little to the S & West of Cape Murray & the ship ^{which} under the Cape ends moderate breezes from N.W.

Kigarnet At 12 oc under sea soon had tacked ship to the North at day light 18th light trade off Cape Murray with the Wind S.E. bore away for Kigarnet & set lower Top about 10 oc Gallant Staring sails the ship in sight at the entrance of Cloveney Strait at about 6 oc she bore away I suppose for Lundy road. at 2 oc foggy & light rain Cape came to anchor in Kigarnet latter day a number of natives on board but no trade too much soft soap

1823 Journal on board the Brig Rob Roy

Regearnee
Feb 19

Begin calm which continues in the harbour, all day a good many Indians on board and some trade Cogwell paid his debts. & Douglass got drunk & fell over board ends a thick fog & rain Maria Hugh

26th 21st

20th light breezes from the S.W. with light showers of rain some trade in fur 11 O'clock 21st light & variable winds a thick fog outside & showers of rain a number of natives on board & a little trade in fur ends calm with fog rain

22nd

The past night calm until 20th from this time to morning stiff breezes in squalls with heavy rain At about 4 O'clock found the vessel had struck a drift & drifted across the harbour without the watch knowing it & her stern in 2 1/2 fms water on a reef of rocks on the North side of the harbour. sent down top Gallant yards & bent on a warp on to the Lawser & carried on the opposite shore after having got out the pinace (as our boats are small with a Lawser in contact full but 2000 lbs) to give them a pull after some difficulty got the Lawser fast on shore. while this was doing the brig swung and struck on the reef twice & three times. Had did not fasten horn in the cable & up anchor & warped her over us to the other side to near her former anchorage. luckily for her had it braced up & our warp parted we must have been carried out an anchor & chain cable & to let go a second & it showed itself about an hour afterwards. At 10 not an anchor in the vessel over 13 ent & but one hemp Lawser. all day very heavy rain with fog & stiff to squalls from the S.W. but few natives on board & no trade ends the same. the natives say Clark almost went on shore here with 3 anchor ahead - he left here the day after we arrived

on the Coast of North West America 1823

At Sea 23rd
Feb 7th

At 12 o'clock this morning hove up with stiff breeze from the NW & clear hove up the anchor with no strain & got under way with the two top sails. Just at the entrance of the Harbour the Brig suddenly broach to on the Starboard tack & came within her length of the Pinker Rocks on the Lth side going in first the helm to Starboard when she not obeying her helm rounded to on the other tack and was going on the rocks on the Sth side of the entrance & was very near when the M^{rs} sail was shivered & she fell off & continued the morning stiff breeze from NW at 4 o'clock double point rose sun down & steamed for St. Legals Brought 4 Cobs at about 4 o'clock about 2 or three miles from the Bar. saw a sail inside the Bar which proved to be the Sultan standing out. saw in out the Bar & tacked ship in 2 1/2 fms water at 8 o'clock the ship astern of us Course North. whether the Gentlemen has twigged us or not cannot tell

St. Sebastien
Canal de
Principe

Commenced with stiff breeze from the NW & clear during the night saw over to the Canal de Principe & hove off again the ship a little ahead & to leeward of us at the side stood in to the entrance of the Canal & saw up the ship went into Key Harbour. to Sebastien at 11 o'clock came to anchor but finding the bottom hard carried out the Kedge & warped her over to the NW shore. but bringing the Kedge home & the anchor dropped the anchor & carried over the Kedge again & dropped the anchor & moved her with the Kedge but she soon struck adrift (with very little wind) and drifted over to the Southern shore in 6 fms rocky bottom bent on the warp on to the dower & carried it over & made fast on shore hove up the anchor again & warped her over & let it go again in good bottom NB found not an Indian here & I suppose are all at Key Harbour
+ on the Harour out 3 times

25th Commenced cloudy & light breeze from the NE fir two guns in the morning but no Indians to be seen or heard yesterday heard the guns of the Sultan several times the first time 2 in quick succession which is a signal of distress - and one gun at night ends light spits of snow with cloudy wind at N.E.

At 30 learn
by Indians, Clark
got the Indians
at King
Harbour

abruptly commences with moderate breezes from the East
at 1/2 past 4 have up ^{and in so doing} brought the Anchor home
& proceeded out of the harbour without having seen an Indian
& in running out saw nothing of the ship in King Harbour or
any smoke. At 11 o'clock about of Point Roberts on stiff breezes from
the S & East at one o'clock ^{Brown's passage showing about North} saw a breaker & rock passed to
the North of & directly after made another in a N N W
Direction ^{on a mile} from the first. they bear from Brown's passage
South; Westward distant 9 miles NB a new thing altogether
at 1/2 past 4 made the low rock in Clarence Straits
This rock bears from Cape Northumberland S W by Compass
at dusk found we could not ^{distinguish} pierce & fresh breezes
from the SE took in Storing sail & top Gallant Sails sent down
the yards Close reef the S & all Topsails double reef the
Topsails & hauled on the wind to the South ^{West} ends more moderate
& more clear

27th

At day light this morning made the land to the East
of North Island with a heavy gale from the SE & very
thick & foggy took in the fore Top Sail & Tysail & wore
ship to the North at 11 o'clock made Riggner point
bearing NW wore ship to the South stiff a very heavy sea
& Gale from the SE at 2 the wind hauled to the South West
and cleared up a little found we could not clear Forrester
SE wore ship to the South & East & set Ballanc Reef Tysail
& set Close reef S & Topsail sent down more clear & moderate
North SE bearing S. by W Riggner pt N

28th
Riggarne
Near Cape
De la Cruz

During the Night fresh squalls from the S West
with hail. at 3 o'clock wore ship to the North at day
light clear with fresh breezes from the S.E. at 9 o'clock
of Riggner point & at 10 o'clock came to Anchor in Lattas
Bay afternoon a number of natives on board but no
towards night fresh breezes from the SE with fog
& rain let go the Small Bower Anchor & bent on a part
of our Chain anchor Hawser on the Hemp one & made
it fast on shore ends & with heavy squalls
from the SE & rain so after letting go our Anchor the
first time found we were too much shored triped it & dropped
astern & let it go again

of North West America 1823
Frigate
March 1st During the night fresh breezes from the S.E. & rain
blowing light winds from S.E. & a heavy swell heaving into the
harbour. During the day light breezes & very foggy a number
of natives on board but no trade the old ship Henry Henry

2nd Commences calm & clear at 10 O.C. a thick fog in the afternoon
light breezes from S.E. with fog & rain at 4 O.C. arrived
Ship Altona Capt Newell from Sandwich Islands last
for news & a new book

3rd Commences with rain & fog forenoon & afternoon clear
but few natives on board & no trade this day made up
my bed for the first time this 3 months

4th Begins with light breezes from S.W. & slight spits of rain
afternoon light breezes from the North & cloudy no trade
in fur receiving some trade from the Altona

5th Begins pleasant & slight wind from the North
at noon saw something like a sail off Cape Henry
it appears like a sloop, afternoon Wind S.E. & at night
the same & a pretty thick snow storm

6th Tolerably pleasant & no trade

Ship
Altona 7th This morning I went on board the Ship Altona
George Newell Master to take an act of Furs &c
at 4 O.C. the Brig Rob Roy sailed but after getting
out side returned having taken the wind at S.E. during the
day light spits of snow & rain with some trade 16 Macks
and foggy with rain

8th Commences calm & foggy during the day
light & variable breezes a number of natives on
board & some trade ends thick & dirty weather

9th Commences with fog & light winds from S.E.
with rain which continues throughout the day
& ends with heavy rain a fresh breeze from
S.E. but little trade in furs

1823 Journal on board the ^{Ship} ~~Brig~~ ^{Albion} ~~Robt~~ ^{Robt} ~~Robt~~
Reganne Commences with light breezes from the N.W.
Feb 10th with a thick fog & rain & snow at 3 P.M.
Lat 54.45 Clear & fresh breezes from N.W. the Brig Robt
Robt got under way & proceeded out of the Harbour
end clear but little trade to day

11th During the day light winds from the North & West
with squalls of snow this day be it remembered one of
the crew of this ship took a loaded musket from
the arm chest forward with an intention to shoot the
Captain his name was Burton & in fact they were
making on board and in fact the whole of the sailors, forward
used very threatening language language which would
have the whole of them soon trade in five to day end
clear & moderate with light breezes from N.W.
Crewby struck the Capt once or twice & swore no man in
board should go in town also they sworn revenge

12th Commences & ends with stiff breezes from the S.E.
& heavy rain & snow all day but few natives on board
& no trade.

13th Commences with stiff breezes from A.S.W. with
snow but few natives on board but a little trade
afternoon clear & stiff breezes

14th Begins with light breezes from the West with
squalls of snow at nine P.M. Love up & proceeded
out of the Harbour after getting well clear of the passage
took the Wind to the South & West & very thick snow
squalls. tacked ship & stood in again with stiff breezes
& very thick snow after entering the passage and 1/4 way
of the way to the anchorage the wind headed us off let go the
anchor & furlled the sails carried out the Tackle and warp
her to it & weighed it run up Gib & Spanken & run up
to the Anchorage and Anchored at 12 P.M. & stood moor with
the Howse on shore Ends heavy squall of wind
from the S.E. & thick snow

Frigarney
Ship
Abentor
15th Begins with a snow storm & a South Westerly wind
at 4th hour up the Port Bow Anchor at 8th 9th calm
& at 12 heavy squalls of wind with snow from the S.W.
which continues through the day & ends the same

16 Commences calm but at 8th 10th stiff breezes from the S.E.
with a very thick snow storm which continues the forenoon
at 12th the wind haul to the N.E. with stiff breezes
& very thick snow and as the ship swayed it brought
her ~~stern~~ Stern near to the point of rocks which forms
the foreboard entrance to the Cove in this place here in
15 fms of the Chain Cable & dropped the Port bow Anchor
& carried out a hedge to the North at 4th the Wind at N.W.
with thick snow. end fresh breezes from N.W. & pretty clear

17 Begins with a calm but at 8th 10th stiff breezes from S.W. with a very thick
snow storm at 3 P.M. light breezes from the N.W. here up but had not
proceeded more than three times our length before it was calm dropped
Anchor & put the sails again end clear & light air from the North

18 Commences with a calm & at day light found we were a drifting out of
the harbour as we had probably tripped our anchor in the flood tide carried
out the ~~hedge~~ about & hove up the Anchor & towed her in to Anchor
still calm at 7th 8th fresh breezes from the East & clear in the afternoon
wind the same & heavy breezes and very thick snow end heavy rain

19 During the night until 4th 6th stiff breezes from the South
at 4th the Wind suddenly haul to the S.W. with very heavy squalls
of snow & hail at 5th parted the Hawser which was made fast
on shore & drifted a little let go the hump cable & lost Port An-
chor & got her up in the morning very heavy squalls of wind
from S.W. S.W. & gave the ship some cable which brought her about
twice her length from the rock inside on the South side of the prop
and during the forenoon the gale the same at 12th more moderate
hove in the hump cable & at 3th hove up the chain anchor & got under
way with light breezes from the S.W. & proceeded out of the harbour
after clearing Frigarn point took the Wind to the West & fresh
breezes single set the ab. Topsail & Spanker. at sun down set all
sail. Forrester's hel' bow West & Camp up at 8 fresh breezes from the
S.W. & pretty clear

20 Morning commences with hard gale from the S.W. to W.
standing to the South & North Island in sight. under reef
Spanker & reef Topsail set all sail occasionally during the forenoon
Wind the same in heavy squalls at 12th 1st tacked ship to the
North & West at 3 P.M. gale increases took in Spanker
all round Top Sail fore Top Sail & Gib reef Top Sail &
double reef all Topsail & set reef Top sail at 6 heavy gale
& a wind at West wore ship to the South Frigarn pt N.W.

1823 Journal on board the ~~Ship~~ **Rob Roy** Mentor

March 21st During the past night puntill 200 very heavy gales from the S.W. & West at 4 clear & moderate breezes from the S.W. North Island bearing west at 700 distant 3 miles wind at West at 4 past I tacked ship to the N. West at 9 tacked again to the S. & came to anchor in 15 fms, hard sandy bottom a few canoes & natives came off but had no furs brought 1 thick & 1 sail & some ballistall at 300 light winds from S.W. & I hove up and set all sail to the West at 600 North point bore South at 800 heavy breeze from the South took in Top & Sails M.T. Stay sail up Cap Sails & Spanker took in all Sails & Jib & set S.T. M. Stay sail ends heavy breeze from the South & thick dirty weather Course West from our anchorage the N. Eastmost point of N. Rd bore to Com² N.W. Keiden point E. N.E. Riggsen pt N.W.

At Sea

22

Morning commences with light breeze from the S.W. & thick weather no land in sight at 900 bore away N.E. for the Land & at 10 past 10 made it to the South of Cape Addington at throughout the forenoon wind the same at 12 made Cape Addington bearing N.W. stood for it & into the Bay but owing to light winds made but little progress at 500 thick & hazy haul off on the Wind Commutation 100 bore in Company N.W. by W. Warrens Rd N.E. W entrance to Heinegar N. of Cape Addington S.E. by E. from Cape Addington the small 100 bore N.W. with 100

23

During the night light fresh breeze from the S.E. & pretty clear standing off shore. at day light stood in for Cape Addington but the breeze freshening & a thick fog coming on tacked ship to the West at 1 heavy breeze from the S.E. close reefed Top sail took in all in Top sail & Spanker haul up all S. took in Jib & Sails at 11 took in Top sail & reefed Top sail at 500 an over moderate breeze wore ship to the East & made a little more sail ends thick & foggy & stiff breezes from S.E.

 weather
 at 2 hours 2 am

Commences with light breezes from the NW at 7 oc hove up & got under way but before getting out of the Papage the Wind headed us off to the Ship twice I went out after clearing the Papage to the harbour the Wind haul'd to the West & we were forced to beat out at 12 oc in the Papage to the Sound the Dunken Rock framing very high & thickening sheet every 10 minutes during the Afternoon plying the windward but making but little progress at 8 oc are back up with Elephant Isd at 8 oc at 3 miles at 10 oc breezes from NW & Dr

Journal on board the Ship Mentor on the

Coo You
April 7th
Entrance to
Afflicks Canal
Salt
Duke of
Clarence
Strait

Albion commences with moderate breezes from the West
Cape Addington South during the forenoon flying with long
boards to weather Morris Island at 12 weathered it and
stood up for the Strait at 4 fresh breezes from the S.W. at 1/2 past
5 come to anchor in Coo You. a few natives came off but too late
for trade. ends a very thick snow storm
In passing between Morris & Corination Is^t kept off this Harbour or
Bay kept Morris best a board as we run into kelp & a great quantity
of it. This place cannot be called
a harbour as it is only a bay that makes in to the West of the
Western point of entrance to Afflicks Canal.

8 & 9 These two days past have been pleasant the 9 a few natives
on board and a little trade.

10 & 11 The two past two days have been remarkably pleasant
it for the N.W.C. & a little trade went off Coyne to Elkanoo
to night arrived a Henegea Canoe had news to day that astonished
me of Mr. in

12 & 13 The 12 very pleasant the 13 Commences & continues the
same at 4.00 arrived the Brig Lascar Cape Harris
from Elkanoo this morning she came between Cape Dessein
& Corination Island but little trade to day & all the skins
we buy are just killed & the passage between Corination Is^t & Cape - is a
good one (Harris)

14 to 17 Have been remarkably pleasant & warm but little
trade with the natives in delivering goods to the Lascar
on the morning of the 17 at 5.00 got under way in Co with
the Lascar ^{Wind at NW} & proceeded out of the Harbour after clearing
the passage the latter bore away for Corination Is^t continues
through the forenoon light breezes from the N.W. flying
with short tacks up the Strait at 1 Light breezes from the
South which soon change to N.W. & ends the same
at 5 pt Baker North. Dis 1.00 wind at North a good many
hunting along side but not much trade. & do not appear to have
many skins.

18 Morning
Commences with light breezes from the N.W. & N
all night flying with short tacks up the Strait at 7.00
about of Port protection & at 11 nearly calm and a very
strong tide setting in to Leeward at 13.00 light airs from
the S.W. weathered pt Baker & continued our course
to the East at 6.00 calm (pt Baker dis about 7 miles)
& a burst of a g. eve which I went & rounded & found it
a very good harbour out boats I towed it in & anchored in
a good bottom particularly hereafter. during the day
a number of natives along side but no trade ends
calm & pleasant the Great Sea came along side at dusk

I suppose this is a
Coastal water
to the South

Coast of North West America 1823.

Straits
Port
Apr 19th
New point
Colpoys

Yesterday Anchorage Pt Barrie N.W. Pt West of Pt Colpoys
N.E. by E. 1/2 E. pt Pt Barrie N.E. we found the anchorage where we lay
not so good as we expected as at low water there is a rock very much in
the way at the head of the Bay on the Western side I not seen at high
water. 19th Commences calm & still continues through the day
I arrived in the flood tide at 200 have up the anchor & with the
two Boats ahead towed her up about nine miles to a bay on the
Southern shore sent in the Boat I found an anchorage I at 700 came
to anchor in 13 fms good bottom pt Colpoys bearing E. S. E. dis 3/4 miles
particulars here after a rock off the Pt being from the anchorage this morning
N.E. by E. 1/2 E. dis from shore 1/2 mile or at high water.

Apr 20th & 21

20 Commences & continues through the day pleasant & warm little or no
trade 21 Light air from the S.E. & cloudy at sun down arrived the great
Chief of the Chickema tribe Phakes & the greatest Chief of the N.W. Coast
but little trade to day as the natives have accounts of a competition between
the vessels at the South end clear

22

Begins with rain & fog light breezes from the N.W. at 10 00
a sail was seen in the Straits standing in which soon proved to
be the Owhyhee Cape Grimes from Henegea I saw find it pretty much
as the natives say. ends fresh squalls from S.E.
Cape Grimes says that Plutson made the proposal to Croft to divide furs
while in port. which was refused. Capt I told me the same to day June 29th 1823

23

Commences with rain & fog which continues through the day
at 1/2 past nine returned from Brig Owhyhee having been on board to take
an account of furs bought at this place a little trade to day

24 & 25

These two days part has been stiff breeze from the N.W.
with squalls of snow & rain some trade in fur on board both vessels
as there are in division 42 skins but for high prices

26

Begins light breeze from the N.W. & clear at 10 00 the Brig
have up & proceeded out but after getting out in the Straits was
be calmed & was in sight all day. at 5 00 light breeze from the
East got under way from the Ridge & with the ebb tide passed out
of the Harbour after getting out in the Straits becalmed but the tide
setting us down at 11 becalmed still sounded but no bottom 60 fms
put the Boat ahead to tow us in shore to find anchorage after the
Brig went out bought 6 Black skins

27th

At 4 00 this morning took a breeze from the N.W. which
carried us round the Baker up to that time the Boat ahead
and calmed at 8 calm the Brig considerably ahead at 9 light breeze
from N.W. set all sail at 11 passed the Brig have too to trade
Afternoon Moderate breezes from the N.W. At 12 entered the
passage between Harrier Is. & the Main kept the
Is. side best aboared it was high water I saw no dangers
but the rocks on the main side

1823 Journal on board the Ship Abentor

Senegar
Apr 27

I throw rocks high out of water the afternoon beating up to the Harbour the Brig to seaward as we run down as the mouth of the Papay which observing the Brig bear away (she being on the Western shore) we also did the same and went to anchor to the West of the Bluff of entrance in 14 fms good bottom where the Brig also anchored, for particulars see chart ends calm

28
29

28 nothing doing 29 Begins with fresh breezes from the S.W. & cloudy At 12.00 hoist up the anchor & run up to the Harbour of Senegar with the Brig. some trade to day in fair ends fresh breezes from the S.W.

30

Commences with fresh breezes from the S.E. with fog & rain which continues through the day no trade on board the ship

May 1st

Begins with a thick S.E. storm not of rain & fresh breezes sends the same some trade on board the vessels

1. 5

2 Continual heavy rain all day & fresh breezes from the S.E. to the S. clear & cool winds from the N.E. but little trade on board the vessels. one papenger Cogwell left us the 3 & his wife the next day

6th

At 5.00 this morning commenced smothering of the Ship with 4 pots of charcoal at 9.00 took off the Hatches as this smoke has effectually destroyed them the Powder we were storing in the Long Boat & at night about one hour after opening the hatches in stowing it away I jumped down into the magazine & worked about a quarter of an hour & in coming up as soon as I took the fresh air I almost fainted & felt such a sensation at my breast that I could not speak however I soon got over it & felt this but a terrible head ache in the morning

7

During the day light & variable winds with a pretty steady rain no trade on board the ship & very little on board the Brigs ends calm & cloudy

8th
Windy

Commences with light winds from the N.W. in the morning I went on board the Brig & whyler. Cape Princes to see fair play at 4 boats the North of Pt of Albans & the Brig to Port of Good after clearing of the Sound at latter part of the afternoon light winds & calm making but little progress that at 5.00 both vessels were to the South of Morris Is. ends light breezes from the N.W.

Coo You
May 9th
Brig

At day light this morning between Warren Is. & Cape Pole having made but few mile distance during the night owing to easterly tide at 7 light breezes from the N.W. (the Ship in Company) but the tide which runs very strong in this passage set us up very fast & at 9 clear the passage & stood over for Coo You the Ship about haul for Coo You at 12 light breezes from the S.E. at 3.00 came to anchor in Coo You in 17 fms water ends calm & clear. course from the north part of Warren Is. ~~N.W.~~ to Coo You N.W.

10 Commences with light breezes from the S.E. & rain in the afternoon at 3.00 saw a sail off in the Straits standing for this place which proved to be the Alentor she came from Cape (or Hows Len or) this morning. she went in the the Anchor up last night at high water & anchored in 23 fms very near shore. at 10.00 in the morning at low water she was almost surrounded with rocks & in fact she came over a reef in coming in which was just out of water at ebb tide before she could get but it came on to blow heavy from the S.E. she was forced to cut away the Hawser (which she had work up to) with the Redge to it & got out very much fortunately by her own timing so well but having come very near losing the three boats by some circumstances it appears the Indians had an intention to have her get ashore but were luckily disappointed

11th 13th have been tolerably pleasant & warm but little trade for at 10.00 this evening the Brig got under way & towed out for the South ends calm P.S. from Cape Prince said when the sail he was going to the south to see Capt Clark but went immediately up Chatham Straits & to find us - but we twiced him completely

14 At 2.00 last night got under way with very light breezes from the N.W. & clear owing to light winds did not reach Warren Is. until 7.00 having stood over pretty near it had some difficulty in getting the ship round she got stern way & came very near getting ashore but the wind suddenly squared to the N.E. & the breezes she went off. during the fore noon made several facks but found we did not gain any up the Straits stood away for Coo You at 12.00 came to anchor in 19 fms rocky bottom ends cloudy no trade wind at N.E.

15 Commences with moderate breezes from the N.W. & cloudy but few natives along side & no trade at 4.00 have up & proceeded out of the Harbour but the wind heading us off we were forced to close the Anch. Point rather to close but went out clear an Indian on board named John ends cloudy & moderate breezes from N.E. P.S. John is a clever fellow & is the only Indian I ever saw who knew when coming from Hiclane bound to Denigau, John at the right of the Coo You village John actually cried

1823 Journal on board the Ship Mentor

Clarence During the past night moderate breezes from the NW
 Straits & morning commences with the same During the day until
 May 16 400 flying with moderate breezes up the straits at 400
 in the Afternoon weathered point Baker & soon after it
 became calm got out the sweeps but the tide against us
 made but little head way at 100 cloudy with light airs
 from the Eastward, but soon after calm continued, sweeping until
 one of them having struck a bank with 23 fms line to get the Hedges
 bore it up with the flood tide at 300 but at day light had made
 little or no progress

17th Begins calm & clear working the best of our way up the straits with
 sweeps at 1200 came to anchor ^{outside of a} small Bay on the southern side of
 the straits about 6 miles from Pt Colpoys in 13 fms this is a very little Bay
 for a S. Easter but has a rock off the Eastern point of entrance about 3
 cables length at the flood tide 200 long up & with very light winds
 from NW run up to our former anchorage when here fast and at
 500 came to anchor in 10 fms excellent bottom ends calm & clear

A dangerous rock in Clarence Straits 2 cables off shore (Eastern) and to the
 south of Pt Baker. bears from said point S. by E 1/2 E 1/2 Compas. and 700
 miles from it. It has also another inside of it
 the sunken rock between pt Colpoys & pt bears from a long low
 the Western point of a long low ^{to the East of pt Howe} S. by W
 by compass from the anchor up to pt Colpoys bears N. by E 1/2 E 1700
 Another rock to the West of this

19 Commencing with light breezes from the N.W. & clear a bright trade
 is for this morning at this place we have bought 32 Whisk skins
 at 1100 got under way from the Hedges & sweep out ^{to the Harbour} During the after
 noon light & variable winds blowing & sweeping the vessel down the
 straits. saw in the Boat this afternoon I found good anchorage in
 a bay with a sand beach about 3/4 cables from the Harbour.
 this Harbour is about 3000 ft miles from pt Colpoys in coming
 from the West you will see the Point (Colpoys) & may be known by having
 a rock off it at a short distance & and another low point to the West
 of it this point ^{is} the Western point of entrance but must
 not be approached too near nor the shore that up the Bay to the south
 of this pt

Flarences
Straits
May 20th

During the night untill 2 O'Clock clear & calm at 2. took fresh breezes from the N.W. at 4 passed Point Barker. at 7 O'Clock hauled to wind for some canoe off Hows Leno but blowing fresh only one canoe came off had nothing set down & stop at last. During night & proceeded down the Straits & at 12 O'Clock off the Bluff of entrance to Henege, we having passed to the East of Harris Is. hauled on the wind for the Harbour soon the out of the Breeze & were becalmed with a fresh breeze three times the length of the vessel astern of us at 1 Light & variable breezes at 3 fresh from the N.W. during the afternoon beat up to the entrance of the Harbour but at dark the wind became so light & baffling, could not get in & dropped the Kedge in 45 fms water with the small boat at entrance bearing N.W. by N.

21
Henege

During the night calm at 7 O'Clock seeing a breeze coming from the N.E. run up the Kedge & got under way soon into the Harbour & stood over to the Western shore closed up the sails to come to anchor but finding the ground rocky & uneven bore the sails by sails to beat off the Eastern side at one time the wind was so baffling, anchoring stood we had some difficulty in tacking & we came very near getting on to the rocks they are being more than the length of the vessel off. at 10 O'Clock came to anchor in our former anchorage in 15 fms good bottom. N.B. yesterday while tacking ship and on a new shipmen show a dyer's record by the name of Fisher struck the Cape & pulled off his coat to fight him

22³³

22³³ Calm & pleasant a bright trade in fore in the afternoon in the morning have up the anchor to go out but the wind drawing in & flood tide dropped the Kedge in the middle of the Harbour at 8 O'Clock heard a gun & at 9 saw a sail out in the offing standing in which soon proved to be the whyper Cape Grimes at 10 O'Clock came to anchor off us. today they have Rigamir canoes came in with all the most all of the Chiefs of that place

24^{to} 28th

These 4 days past have been rainy & cool with the Wind at S.E. not much trade on board the vessels as the Rigamir fellows will not sell themselves nor let any body else if they can prevent it

29

Commenced with fresh breezes from E.S.E. & cloudy at 8 O'Clock got under way & beat out of the Harbour the Brig in Co. at 12 wind the same weathered the Bluff & bore up for Harris Is. passed to the East of it afternoon rainy & a thick fog set in during sail & stood over for Cow You at 3 saw the Brig about 6 Miles astern standing up the Straits on the Eastern shore. for something strange as it was supposed we were to go into Cow You together at 4 O'Clock came to anchor in 20 fms in Cow You few natives on board but no trade and heavy rain

Cow You
May

30th & 31st

in coming not showed the water close

30 pleasant cool & cloudy 31st at 7 O'Clock this morning got under way with moderate breezes from the North having Kedge out to clear the Village Point after getting out in the Straits. saw a sail (whyper) standing out of Hows Leno & soon hauled his wind up the Straits during the forenoon moderate breezes from the North & calm at 12 O'Clock & during the afternoon light & variable breezes with the assistance of the flood tide we were at 6 O'Clock abreast of Port Bonaville with light breezes from the North at 10 O'Clock in the same place the Brig ahead called

1823 Journal on board the Ship Mentor.

Clarence
Strait
June 1st

Morning commences calm - absent of Port Protection. but the ebb tide began to make at 6 o'clock and at 12 o'clock we were 5 miles below it although we had moderate breeze from the North West during the forenoon after noon calm until 3 o'clock at 4 past 3 moderate breeze from the S.E. out during sails & at 5 passed point Baker & ran up the Eastern Strait about 2 miles & then lost the breeze from 4 past 5 until 9 light & variable breeze & ebb tide setting us back again we came to with the Kedge on the Southern shore about 2 miles from Pt Baker in 45 fms water. In the morning foggy at 10 clear saw the Brig on the Northern shore becalmed she kept ahead all day. Sat 9 o'clock is about 6 miles ahead. this is the 3rd time we have been left here & we have found it invariably the case that on the ebb tide there is a breeze from the N.W. & on the flood light & variable winds. Sat 5.2.23

June 2nd

At 2 o'clock this morning weighed the Kedge & got under way past the Boat ahead but a day light had made nothing of the Brig in light at 9 off Pt Baker at 10 took fresh breeze from the South & West set all sail but the wind being baffling in the middle of the day it was 1/2 past 6 before we reached point St Johns then becalmed at 1/2 past 7 light breeze from the N.W. made sails but it soon left us & we were all night becalmed the Brig came to anchor inside the East of a small Island to the East of point Howe & the East of point St Johns is two or three small Islands to the West of them. & between them & the point is good anchorage 14 fms soft bottom & the Rock very much in the way in these straits before 8 1/2 W. W. from the western point of the small Island to the East of point St Johns

3 Morning commences with stiff breeze from the N.E. during the forenoon flying with short tacks to the East the Brig ahead - at noon the wind light & variable at 4 past the Brig who was going astern with her sails all full at 1/2 past 4 took fresh breeze from the S.E. the Brig astern about 1/4 mile could not get to it after clearing the small Is off point Craig bore away for point Highfield and at 1/2 past 5 came to anchor in 17 fms soft bottom between a small Is & point Highfield the latter bearing south distant 3 Gunners length ends fresh breeze from the S.E. (outside) & cloudy the Brig not in sight

Stickney

At 6 O'Clock this morning made Scotts Islands bearing E by N & thick foggy weather at 12 per h breeze from the N.W. about of the North Star soon after made Cape Scott during the afternoon moderate at 4 entered the Sound thick & heavy at 6 O'Clock the Bar soundings twice 7 & 10 fms from 5 to 9 light breeze & making but little head way for 2 fms & at 10 past 9 we were boarded by a boat from the Brig Frederick Capt Stutton who sent his boats & towed in up to anchor age in 30 fms at 11 O'Clock

30 June &
July 1st
P. 1

These 2 days have been pleasant & pretty warm but ended with rain a number of natives along side but no trade they are the greatest thieves on the Coast yesterday they stole our Union Royal Sheet & blue line on Leaboard & cut away our main sheet close up to the Chocks & carried away the hook & thimble. & sent two gun apsons yesterday shifted our berth. to more pleasant weather & calm a number of different tribes along side from up the sound of a different language from the Newittes

4th

Commences pleasant & ends the same this day being the anniversary of the Independence of U.S.A. in whose territory we are south of 51° 15' fired two guns at day light & hoisted Ensign Signal & at 12 fired a salute of 18 Guns. and the Frederick S. dined on Port. pig & on the whole passed the day very agreeably. but for myself had rather celebrated the day at home as I am pretty sick off this part of the world

5th to 12th

R. V.

This time has been tolerably pleasant & warm, nothing has happened unusual. the Brig Rob Roy & Lascar arrived on the 9th inst. & on the 11th I went on board the Brig again & the Doctor (Dr Robison) went on board the Ship again these two days past have been doing level employed restoring the hold

12th to 24

During this time we have been engaged in taking supplies of Cargo &c from the Mentor, a number of natives along side but not of this tribe who have I am informed been mostly killed off & they are a very small tribe at this time
on yesterday the Ship Mentor sailed & was forced to beat out some of the Brig crew go in her. & they came aft & said they would do no more duty after the Ship sailed.
At 2 O'Clock this day I shall not forget it took leave of my friend Capt Geo Newell a man with whom I have spent more pleasant days with than I expect to see this some time. May success attend him & may we meet again in a more civilized country & I have it in my power to repay him the politeness he has shown me.

Sea
Oct 29th 31

At day light the 29th we found ourselves where we tack^d ship at 906 in the evening & during the forenoon were becalmed at 12 a breeze spring up by night at 906 we reach Cape Adington. During the night under easy sail at day light 30th stood in for Henegau the Wind at East but did not reach the Bluff until 5.00 & a fresh breeze from the Eastward which drew out the poop we bore away & close reef topsails fore sail & try sail. the 30th Commenced foggy & stiff breeze from the E.S.E. made all sail for Henegau at 11.00 made the small Island in the offing at 3.00 passed the Bluff but could not fetch the entrance to the Harbour without a tack & it was dark before we reached the poop however at 8 we came to anchor 15 fms and heavy rain & thick fog

Nov^r 1st
Henegau

Commenced with a heavy rain at 11 some Canoes came in but are the Coo You tribe & have no skins this tribe are all away down to Clewadek they inform us. this is however our usual good luck. no skins & if luck does not turn it will be hard times.

to 4th the 2 & 3 have been raining with the Eastward yesterday we sent off a fellow for the Indians of this tribe to day they came in 5 or 6 Canoes & say they have some skins & tomorrow they will trade

5 & 6 the 5th no trade & fresh breeze from S.E. our Boat with 2 White men & 1 Kanacker in ~~the~~ coming from the shore with wood & being heavily loaded was capsized but none of them drowned to day the natives sold what skins they had & went away

to 8 During this time there have been no Indians, the Wind at about N.E. & raining but to day clear & good day before yesterday I undertook to bleed a man, tried in both arms & feet but the blood would not run it was thick & black

12th

to the 12 have been raining & light variable wind from the 12 at 4.00 the wind veered to the S.E. & blew fresh which at 8 ^{increased} ~~amounted~~ to a very heavy gale with considerable of a chop in the harbour let go the small chain anchor & paid out 60 fms on the large one which held her at 1 the wind veered to the S.W. & more moderate & at 6 again veered to the N.W. and moderate & cloudy

to 15th

All the unimportant events that have taken place during the time I shall not attempt to relate, but on the 15th in the morning after a leave of 3 hours weighted our anchors & with light baffling winds proceeded out of the harbour after clearing the entrance took fresh breeze from the Eastward which carried us up to Cape Adington at 6.00 ^{that soon} came on however the blow heavy from the East & E.S.E. ^{South & S.W.} & continued a very gale the 3 ensuing days most of the time under a reef of sail & close reef all topsails on with a very heavy sea on

Sea

The new year commences calm & cloudy. Cape Bart
bearing West 20 miles until 12 oc calm at 2 light breeze
from the S.E. course to the East at 8 stiff breeze from the
S.E. with rain set down S.E. gales & surf & sails & by 1 mid
at 15 fms water 20 miles from land

the 2 moderate breeze from the S.E. & clear at 12
oc when within 2 miles of the bar the wind veer to the S.W.
haul off again. the 3rd commences with stiff breeze from
S.E. & cloudy at 7 oc in the morning bore away for St Peter
at one oc rounded it when the wind veer to the S.W.
& blew heavy at 6 o'clock surf & sea during the night
stood off & on Cape Henry.

Sunday
4th Jan 7

Commences with fresh breeze from S.W. at 7 made Cape
Henry & bore up for it at 12 oc died away nearly calm
at 2 light breeze from the south which enabled us to reach
St Peter by dark run up to the outer harbour fired 2 guns
which was answered from the Frederick - the commander of
which was very much disappointed however with the
assistance of his boats we reach the anchorage at
10 oc. AB found the Steekum Indians here

From Garre

Sunday
11th Jan 7

The week past the weather has been pretty severe cold with
Wind at N.W. & clear. not much trade in fur brought from the day
before two men & Houshins

Monday
Tuesday
12th & 13

Commences with a thick snow storm & heavy breeze from
the S.E. at 10 gale increases struck adrift let go the stream
anchors which brought her up 2 1/2 cables length from the South Western
shore during the day the gale the same blowing very hard in squalls
& thick snow at 9 at night heavy rain which continues all the
night at 4 in the morning the gale increased to a hurricane
let go the Starboard anchor ^{under} at 7 oc struck adrift again & brought up with the Starboard anchor
within 1/2 cables length of the shore which fortunately held on
During the forenoon, AB sent down the lower yards last night
During the forenoon wind the same but little more moderate
at 2 oc Afternoon wind veer to the S.W. & moderate bore up
the anchors & worked up to our former anchorage at 5 oc & move
with the small & large chains

Coast of North West America 1824

Turngarre These 4 days 3 of the first have been blowing a hurricane but we
to Saturday only brought home our stream anchor with which we were moored
Jan 17 to Day has been tolerable; not much wind but plenty of rain our boat
arrived with the 3^d Officer who has been gone three days after 8 p.m.
a row with the crew to night about noon.

to Sunday had gale all day from the S.E. & rain Monday evening
Tuesday and the same & blew a very heavy gale all day but between 7 & 9 o'clock
20th in the evening it blew the heaviest I ever saw the harbour appeared
like a prison during the night more moderate this morning found
we had parted our small chain cable & lost the anchor.
all day squally with rain & wind more moderate & pretty clear
no trade this week past.

to Thursday During this time nothing has occurred of any notice excepting
Feb 5th within these 3 days the Friedrich & got up near St. Helgard
Sea & bent sails. Dredged for our lost anchor & found it
This morning at 4 o'clock unmoored & proceeded out of the harbour
with light breeze from the N.W. & clear brought 7 ships
coming out at 10 o'clock cleared for Port & made sail for Port Rose
steered S.E. & at 4 o'clock in the afternoon found ourselves considerably
to the East of the port & it being about S.W. hauled up for
Hutegates at 8 shortened sail course & by 10 land dis 5 ellies
sounding 9 fms ends cloudy & fresh breeze from N.W.

Friday (During the night fresh breeze from the N.W. at 10 o'clock
Feb 6th ship in 4 fms water to the East at day light bore the same
found ourselves to leeward of the passage took ship to
the North at 11 past 11 bore away for the passage crossed
the outer bar or rather struck soundings 37 fms opposite the sand
hill, ^{then} steered a course for the small island & no bottom
when nearly up with Celer point the ship suddenly
struck bottom but ^{not heavy} did not stop the next east of
the lead 14 lbs 3 fms, A B the fellow in the chains was
probably careless or did not know when he had bottom
before she struck as she struck only with the swell
& but lightly it has not probably hurt her started the
Coffin a little

Duke of
Clarence
Hunts

Hay Island and the Main or rather to the South of Hay Island.
The anchorage where we are now is a small cove with the village
S.C. of Chuknehar to N & East ^{left them 1/4 mile dis} and a point to the West round which
the land tends to the S.W.

19th

Casarne

A few Indians came down to day yesterday but no trade
this morning begins with light breezes from S.W. & snow at
10 O'Clock the wind over to the South got under weigh for Casarne at 1 O'Clock
passed Hay Island to the South after some difficulty in finding a harbour
came the anchor in what is called Parkine in 26 fms water weighed
at anchor again at 5 O'Clock & hauled more in shore to 10 fms water
a number of natives on board.
this is the place the Indians say to the South & West of Hay Island
but we people safe & saw no rocks but 2 in the Narrows on
the barbed side & some on the barbed shore further up the sound
the Parkine is a misty place but they say clear of wind 10 fms
close in shore

This harbour is free from winds & to run up to the head of it
I presume is a good one it bears from Casarne Village about
West. the stream head of St. Prindal N.E. & the entrance is between
two Islands the Westernmost has some dead trees on the West end
of it & on the East a very small Is. to the S.W. apt with old fouts
on it. - the hardest fellows the deal with I ever saw

Monday
Feb
23

Cocklains
Tungwah

At 7 O'Clock this morning weighed anchor with fresh breezes from
the N.W. & squally after getting out in the sound the wind freshened
at 10 O'Clock passed Chuknehar Point at 12 O'Clock ship & bore up for
St. Percy at one O'Clock passed it having had the best run we have had
since we have been on the Coast after getting into the sound the
wind drove out made from a five fms. and at 11 O'Clock came
to anchor in the outer harbour in 10 fms. ^{good distance} find no Indians here all to Cleme
Cied & suppose Squagins River N.E. & West. ^{Western} pt of entrance to Tungwah
N.W. & W. Western pt of outer harbour S.E. No low water

At 5 O'Clock calm at 6 O'Clock light breeze from the S.E. weigh
anchor & run up to Tungwah where at 8 O'Clock we anchored in the
usual place 8 fms. at 9 O'Clock came along side with Newcost

to 29

The 24th during the night we struck adrift by heavy squalls
from the East which is the only thing that has occurred worth
notice since we have been here.
To day at 6 O'Clock unmoored & got under way with light breezes
from the N.W. but had not proceeded 1/4 of a mile before
we were stopped by the ice which a half inch thick
to go the anchor. - at 10 O'Clock hove it up again & after
a good deal of trouble got through the passage

The Brig Wolf Roy

At one o'clock we cleared Point Percy with fresh breezes from the N.W. bore away for Lape Rock & soon run into a large patch of Kelp a mile in length which by the way we have been in before, jibed ship & cleared at about 1/2 past 3 o'clock passed to the North of Seal Rock at 1/2 past 5 Cape Horn bore N.W. Dis. bellies dark & cloudy running for Clemele Cede

March 1st
Chatham's
Sound

During the night with short & light breeze from the North at 8 o'clock in the morning bore away for Pearl Harbour with heavy squalls from the N.W. set the fore sail & took in the top sail

Pearl
Harbour

At 11 o'clock came to anchor in Pearl Harbour not far from the Minke residence of the Map tribe during the remainder of the day stiff breezes & clear a few natives on board but not much trade

Sunday
March 2nd

During this time we have been southerly about or between Black Shins a about ^{two} hundred land fairs Monday & Tuesday very cold & clear, as it has been all the time since we have been here wind at N & N.W. & N.E.
Friday about 400 Canoes came in from Lema Coons on their way for Nap - then from Lema yesterday day =

Monday
March 3rd
Sea

This morning commences clear & severe cold light breezes from the N.E. at 10 o'clock & at 11 got under way after getting out in the sound took heavy gales from N.E. took in the fore sail & set the top sail the day throwing the spray of over the fore sail yard, several of the crew from their hands the spray passing instantly on deck at 9 o'clock bore away for Cape Henry at 11 passed Seal Rock (to the South) and at one o'clock the lone rock which was high out of water during the day fresh breezes & clear at 7 o'clock they arrived point Dis. bellies clear for Rizerman at 1/2 past 7 clear sun up to City Coon but the wind hauled to the West & we were forced to tack ship & stand out of the Bay fired a gun & the Indians made a coldst & have ever seen on the Coast & never known it continue so long time

9th

Commences with fresh breezes from N.W. & clear standing in for Rizerman point at 10 got a canoe off & soon after bore away for Mapet at 12 Calm at 2 light breeze from N.W. at 7 took ship to the North at 8 Dismal C. Is. Dis. bellies at 8 clear & moderate

In the Coast of North West America Dec 24
Mch 10th
Mapette
L. C. H. D.

Commenced with fresh breezes from NW & clear standing in
for Mapette at 9 o'clock about the Western pt of entrance
& then for the Eastern and kept the Starboard shore & believe
too close aboard as we run through half large quantities of
it in 5 6 7. 8 fms water & after coming to anchor found the
lead line marked wrong the 3 fms mark for 2 fms however
we continued our course up the River keeping as near the
direction as we could and at 12 o'clock came to anchor in
6 fms among the kelp & hard bottom. It was, ebb tide
when we came in which at this time does not run very
strong, but a Spring tide it runs 6 knots & this must be a
man at helm all the time. we found our accustomed good luck
at this place in but few Indians & no skins the natives are
down towards Pt. Barrow

to 13th
During this time the Wind has been at NW & blowing fresh
but few natives along side & no trade

Sun day
Mch 14th

This day we have had narrow escapes & think God
at the end of it I am yet alive. Morning commences
cloudy & fresh breeze from the NW at noon the wind veered
more to the West but blew nearly directly up the river
at 1 o'clock at high water (Spring tides) we got under weigh
to beat down the river the tide running against the wind
at the rate of five knots per hour we made two or three
tacks across the river which is about 1 mile in width in getting
over on the Eastern shore we run into an eddy tide & the
brig would neither wave nor stay she finally payed off
within half a bows length of the shore. this happened
twice after getting down about the second village in standing
over to the Western shore we suddenly shouldered the water to
3 fms immediately hove all aback but she would not mind
her helm on account of the tide & we lay in this situation
a quarter of an hour ^{with} in 12 feet of water or 4 inches
clear of her keel ^{which the bottom we could see plainly} the tide at length carried her off
& she went out clear of the point, soon after we struck 5
fms on the bar side & about a mile from shore put the
helm a lee but before she would come round we could clearly
deserve the bottom & quarter left 3 & two fathoms after a little
time she filled & the wind became light. in this situation we
lay 1/2 hour with just wind enough to keep her still & a heavy sea
breaking on the sand astern. fortunately the wind braced up
again & carried us off over to the Western shore where we run
into quarter left 3 fms again tacked ship again & fetched out
clear of claspots & may I never see it again

During last night light breeze from the West & morning commences with the same at 700 bore away for Pt Rose & at 1100 passed it & hauled up to the South - run under Stacoon but got nothing at 5000 cups Bore bore S.W. more ship to the north ends clear here.

Tuesday
Feb 16th

Morning commences with light breeze from the N.W. & clear - off Cape Stetson standing for the Culpe Canal de Poince at 10 nearly calm at 11 light breeze from the N.W. which soon increased & brought us up to this place at 400 found no Indians but at 600 a Canoe came down the Straits & say the Indians are all scattered round in different places this month we have had no rain nor for ^{circumstance} ~~nothing~~ ^{very} very rarely known in this part of the world.

Shebastians

to

19th

Have been clear with wind @ N.W. no natives of any note & bought but 2 cuts this morning at 800 weighed anchor & proceeded down the Canal with very light winds which continued all day from the East at 600 became calm & bore being N.W. & Compass tick to the South at 11 past 6. at 8 tick to the West with moderate breeze from N.W. & cloudy

20th

Skite gates

Morning commences with stiff breeze from North & clear off Pt Rose tacked ship once or twice but gained nothing & at 800 bore away for this place struck soundings but three times & for the coming for as usual light & baffling wind after passing the Village Islands but at 4000 the anchor age 13 fms good bottom paid off Menetts without difficulty say they have got skins - hope it is true

Thursday

Feb. 25th

During the time we have been here at this place it has only rained two of the last days we have bought 25 Black Skins and twelve more coming out. at 600 this morning got under weigh with moderate breeze from S.W. & squalls of snow & rain which continued the same through the day. at 700 & Woody point bore W by N & S miles at the same time a Kinnacher (Dog) fell from the cabin top over board we were going about 4 knots just past the S. Top tail & the Manni one was down on the Cap luckily the estate had just it & it was up for a sound & I & Capt & myself were tending picked him up with the boat ends squally & fresh breeze from S.W.

The Coast of North West America

Friday
 Abcl 2th Morning commences with moderate breezes from S.E. during the middle of the night calm & ^{light} baffling winds at 12 passed the Rock outside of the Rock at 700 bore away for Hignice - at 12 stiff breezes from S.E. & thick rainy weather but one made City Crown & at 3 came to anchor in Sattas Res pond no Indians here all up to Tucketsarn & 4 a canoe came in - say creek has been here

Thursday
 Ap 1th During the time we have been lying here all but one day it has blown a gale of Wind from the S.E. a number of Indians came in from Clickass sound but we bought but 12 Black skins & others for high prices as they expect somebody will give them more. at 1 this morning got under weigh with light breezes from the S.W. & at 9 cleared the Harbour & stood for Cleavel Cede during the day wind the same & moderate at 700 St. Egeas & 10 miles haul on the wind to the North ends heavy & cool

2
 Cleavel Cede Morning commences with moderate breezes from S.W. & clear during the night standing off & on St. Egeas. at 12 00 came to anchor in the outer harbour of Cleavel Cede a number of canoes along side but no trade & they have got nothing. at 200 wind veered to the S.E. & fresh breezes & foggy - at 500 weighed anchor and ran up to the inner harbour & anchored 19 fms, ends heavy & blowing fresh out side.

Thursday
 to Ap 7th These 4 days the Wind has been at S.W. & S.E. & squally with rain & we have bought but 1 Black skins. This morning commences calm. at 500 weighed anchor & swept & towed out of the harbour after getting out of the narrows took the wind at S.E. with stiff breezes. haul up for St. de Geyas & passed to the South of the rocks. at one passed the lone rock in C. Strait at 600 set Top Sails & Fore sail. thick & squally at 7 made North St. is 10 miles. at one away for Torroster. St. ends thick & rainy

Ap 8th At 500 this morning jibed ship to the North. Day light commences very thick & foggy & a heavy gale & sea from the S.E. at 800 haul on the wind to the West under reefed sail. & again Top sail a very heavy sea from S.E. at 900 a by the ship ^{making deep} dropping her stern carried away our stern Boat. all day the during the forenoon more moderate the same afternoon a little more moderate & clear but no land in sight until 1200 at night the same

1834 The Brig Rob Roy

Apr 10th Morning commenced with moderate breezes from the S.W. & pretty clear but a more ship to the East & made sail. - a very heavy swell from the S.E. at 5 o'clock made Corinuation S.E. & soon after Warrens S.E. during the fore noon occasionally very thick snow squalls. at 12 o'clock passed the Bluff of Henegar shall the sunken Rocks foaming very high. at 3 o'clock came to anchor in the harbour 15 fms - at a little row among the crew - vessels in which the armour was principal

Henegar

Apr 11th Begins with a thick snow storm which continued most of the day a few natives along side but no trade.

Apr 12th These days have been stormy excepting to day. 8th natives came in to the harbour of Monday there was another row among the crew going as long in the boat. & another with the remainder of an armour. to day got up pole Royal Masts & out Flying Gibboon & S.E. S.E. S.E. & 10 fms

Wednesday 21st Apr

During this time the weather has been tolerably good but little rain then or four canoes of the Hudsons tribe came in but had nothing. & Shakes came in the day before yesterday paid two skins which he owed us we have bought here about 30 skins. this morning at 7 o'clock got under weigh with moderate breezes from the N.W. & clear at 11 o'clock passed the Bluff. & during the remainder of the day beat up between Warrens S.E. at 4 o'clock weather it from 4 to 6 wind baffling working on for Coe you at 8 o'clock wind light at N.W. & clear pt of Coe you N.W. 10 miles

Clarences Strait

Apr 22nd Coe You

During the night calm for the most part morning commences clear & calm Coe you dis tillable during the forenoon light & variable breezes until 11 o'clock then calm out sweeps & soon sweeps her in to the Anchorage. & came to at 2 o'clock a number of hunters along side & some skins

Saturday May 1st 1834

Since we have been laying here the Stikene hunters have been over from the other side of the Straits who together with the tribe & the Cahi Indians have sold us about an hundred & ten skins tomorrow expect at the Clacum or tribe down who we have sent for, Carpenter & most of the crew afraid to go ashore

Sunday May 2nd

In this time nothing has happened of consequence a number of canoes came in from Clacumoe, & some Hoods on too, which together with the Henegar Coe you & Stikene tribes, have sold us two hundred skins

on the Coast of N. West A. M. E. R. I. C. A.

Coo You
Sunday
Abay
23rd & 24th

Commences with stiff breezes from the N West & clear at 4 O'Clock in the morning attempted to get under weigh from the Redge (there not being room with the Anchor) which we carried out twice but the wind blowing fresh it came home as soon as the anchor was away in the afternoon more moderate warped up to the Redge weighed it when she cast the wrong way, when he sound with the bell & got sail on her way homewardly & went out at 5 O'Clock rounded the North pt of Narrows Id. when the wind became light, and at 8 O'Clock it came on fresh from S.E. we beat off the South pt until 11 O'Clock at night when it came on thick & we were forced to run up back of the Id. again the 24th commences clear with fresh breezes from S.E. all the forenoon working down between the Id. and the main, at 12 light breezes from the S.W. at 2 O'Clock passed the Bluff of Henegar and after a baffling ugly time came to anchor at 11 O'Clock in the middle of the Harbour at 12 noon among the crew to night. Shall & the carpenter the principal

Henegar
Tuesday
Abay 25th

Begins fresh breezes from the East with heavy rain at 9 hours up the Anchor & run up to the usual anchor age. a weather row among the crew Carpenters, Scribes, Fishes, the principal some natives ashore but no trade

June 2nd

Clarence
Straits

Since we have been here we have bought about one hundred black skins from the different tribes & the weather has been tolerable good at 3 O'Clock this afternoon got under weigh from the Redge with the Wind W. N. W. fresh breezes which soon carried us out clear of the Bluff during the remainder of the afternoon working up between Narrows Id. but the ebb tide set in & carried us down faster than we came up all night tooting ship in the passage every 15 minutes at 4 A.M. flood tide weathered the Id. & took the wind S. W. run over to Coo You without much difficulty & came to anchor in 20 fms at 3 O'Clock no Indians here & no rumour but expect some tomorrow

Coo You
Afflecks
Equal
June 21st

This morning weighed anchor & proceeded out of the Harbour with light breezes or rather none at all but after getting out in the straits had light breezes from the N.E. run over to Narrows Id. & run two thirds down it but saw no Indians & wore ship & beat up again at 6 O'Clock weathered the Id. & moderate breezes from S.W. & cloudy course up the straits and so on

22nd

Begins with light wind from S.E. & clear Cape St. Baker bearing N by E 10 miles at 9 hours fresh but ebb tide & not making much headway at the point St. Baker the Wind following us round at 4 passed St. Johns from that to 11 O'Clock light breezes & clear when we entered the Sound but owing to the tide we could not reach the anchor age & we were all night knocking about in the sound. In the morning came very near getting on shore owing to the tide which prevented the Drig from either wearing

Straits
Sunday
June 24th
28th

Staying on backing astern; however we got off & this morning at 9 o'clock came to anchor in the place where we lay with the Hamilton two years since. But few natives along side but plenty of them at the village & a good many Chilcats among them.

During the time we have laid here nothing has occurred of importance or that will do as Capt Davis says, for a Log Book insertion. We have bought about 80 black skins from the natives we found more penable than we expected, & at 3 o'clock this afternoon got under weigh with a fresh breeze from the S.W. which soon however died away and we were all night & until 9 o'clock this morning pulling at the sweeps to keep her off shore as the tide set runs very strong & in every direction & at 9 o'clock this morning we had not got 5 miles from our anchor age to day we have been more fortunate as we have had a little wind although it has been ahead & we have worked down through the S.W. passage (not exposed by Vancouver) so as to bring Pt Harrington at 9 o'clock to be seen E.S.E. about 5 miles distant under light breeze from the S.W. & cloudy.

Sea

July 1st
Thursday

The night of the 28 we worked down about 15 miles below Pt Harrington but the 29 was calm & we made but little head way at 6 o'clock however we took the wind S.E. & moderate the 30th the wind still S.E. which continued through the day & we worked down to about 20 miles of Pt Grindal at 5 this morning it came on to rain & with a thick fog & stiff breeze, at 12 o'clock finding we gained nothing and it began to blow heavy reef topsails & fore sail & bore away up the Straits and at 4 o'clock came to anchor in a place I think they call 5 fathoms Hall the entrance to this place is between two ledges of rocks the one on the Landed hand (entering) is covered at high water but will be seen the Starboard one is never entirely covered if high water keep the Starboard one best on board 1/4 hours length & run in when past them haul up S.E. & let go your anchor where you please 14 fms good bottom where we lay. There is nothing for a mark for this place only the point above the harbour has a bunch of trees on it which at a distance makes it appear like an island and about the entrance there are two high dry trees trimmed up.

to 4th

Then two days has been a land gale from S.E. & heavy rain fog, not a solitary Indian to be seen.

W.C. on the Coast Nov. 22nd W.C. I. A. M. E. I. C. A. 1824

July 4th
1824
Sunday

The anniversary of the Independence of my country begins
& ends with a heavy rain & of course with fog
We have not attempted to celebrate this day for in the language
of scripture we are in a swampy land our hopes hang upon the
willows & our songs are turned to the lamentations of Jeremiah and
I have not a glass of wine to give ~~native~~ a joy hope my friends at
home are better off & will drink half a dozen on my account

During this time the wind has been a S.E. & moderate
to day at 8 O.C. it veered to the S.W. got under weigh & set all sail
down the straits but it soon died away moderate & at 10 O.C. this
morning we were in near the same place we were last night
during the light breezes & calms but we worked down the straits
considerable under very light breezes from S.W. & down 7

July 13.
Chuckmahog
3

The 9th at 8 O.C. we spiced for Grindal & haul in for Casan
fired a gun & some canoes came off by which we learn
Cape Barker is on the Coast. at 10 bore away down the
straits & after getting a little past Chuckmahog Point
met 10 Pizama canoes, they said they would sell some
skins & we haul on the wind & after 3 or four tacks came
to anchor where we lay last winter & to day 13th got under way
from the 18th skins. ran down & haul in by the Pacy found the Volunteer had left here
5 days more ship & bore away for the coast

14
& 15
Shitegate

Commences light breezes from N.W. & foggy
at 4 spiced for Rose & haul up for Shitegate at 6 O.C. spiced the Bear
but owing to the wind being light & baffling we were all night in the
Bay next day at 11 O.C. came to anchor in the usual place

Monday
26th

While we have been here the Ship Volunteer arrived Capt Barker
not however until we had bought 130 Black Skins by him received letters
and countermanded things totally different &c &c &c D.S. B.P.
This morning at 7 O.C. got under weigh light breezes from S.W. in Co
with the ship during the day light & variable winds. the ship ahead
of us at 1 O.C. Capt Barker bore N.W. during the night spiced the
ship & at 4 O.C. saw nothing of him suppose he bore away for
Shitegate

Sea

27

Morning commences with fresh breezes from the West & pretty
clear at 12 O.C. spiced for Rose wind light variable
at 7 then even till bore S by E & P.C. course N.W.
at 1 moderate breezes from S.W. & cloudy, Capt sick with
bad swelling under his ear.

but off a whale
H. Island
Henegar

During this time we have been up to this place at Cape E when we
had the wind S.E. the whole of the time has been a very thick fog which
I never saw before at this season of the year. but to day at 12/06 we got
in here find no Indians as they are after their squaging round in the sound
to night a canoe came in & brought a breaker of Am which I suppose
will keep them away for two days more. this morning found ourselves
close about the Hazy Islands owing to our taking orientation for Cape Addington
last night

to 16
Chatham
Smith

For five days after our arrival here we never saw an
Indian blowing S.E. with heavy rain at length they came
& we brought 40 skins & twelve bbls of squagen we
have had but 2 days North wind since laying here
the day before yesterday the natives all left us. this morning
at 8/06 got under weigh wind S.W. or C.N.E. and after
two tracks got out of the Harbour at 9/06 passed the bluff
& soon after the wind had blown to the East & light with
a very thick fog which continued until 3 O'clock
when we saw the breakers off Morris Is. & at 4/06
at 4 passed between Carrimatin & the Hazy Islands
course N.W. at a very heavy swell from the S.W.
at 8 pretty clear made Cape Murray which from Whetlet
Cape Decision E by N. Hazy Is. S.E. at 9 took in Poyah
re & held on the wind to the East
N.B. yesterday 3 years from the U.S. American

Elacano
Aug 17th

Morning commences with calm & foggy abate of Port
Conclusion at 11 took a moderate breeze from N.E. which carried us
up to Pt Ellis when it veered to the Westward & heavy rain. At 3 P.M.
came to anchor in this place 20 fms below the tent Island.
No Indians here but one canoe which went out to night - all
over the other side fired two guns which I hope will bring them

to 27th
La

Since laying at this place we have but brought ten skins
& have seen but few natives. it has rained every day since
we have been here & the wind blowing at S.E. with a
very thick fog. this morning towed out of the harbour
after getting out took the wind at W. & N.W. moderate
breeze. but through the whole day a very thick fog &
heavy rain at 8 nearly calm & a little more clear

28th

Commence clear with moderate breeze from the North
which continue through the day, and at 6 O'clock we have
worked up to within about 6 or 7 miles of Hudson Hs
when a canoe came off & reported there were no natives there
all to Norfolk Sound to sell their skins N.B. just as I supposed
now ship down the straits during the night moderate from North
& clear

North West America

1823

Sea
Aug 29

Morning commences clear & light breeze from the North² about Cape
Ommanay at 9 fresh breeze runs down between the Hazy Isd^s & Comination
Isd during the after noon fresh from the N.W. at 9 06 about Horstius
Island & the East of it. ends clear

SB^o

Unlike 12 06 last night moderate breeze from the North after this time
light & baffling. at 7 officer on deck reported the tide was setting the
ship fast ashore. - on deck - & sure enough we were within a few fathoms
shot of the shore about 4 miles from Cape McCluscon. it being a stout
calm maned the sweeps & buff after pulling 3 hours she kept the
same distance off & had not a very tight breeze springing up
would inevitably have gone ashore. However as good luck would
have it we got clear, & the wind freshening at 2 06 we hauled round
Rigarnes point when we were becalmed again - turned too upon
the sweeps & endeavoured to get her in but after getting within
1/4 mile of the entrance the wind breezed up from the N.W. & we
stood out again. & at 9 becalmed again between City Cove & the
point. 3 men sick. head, back, & side, ache. To come tomorrow

Rigarnes
31th +
Sept 2

Last night first part calm towed & swept into the
harbour & came to anchor at 2 06 clock but few natives
here. & the two days have bought but 10 skins at 5 06 to
night got under weigh moderate breezes from the N.W.
& clear, boats come to dry trees

Sebastien

During the night fresh breeze from NW until at 4 06 wind
veer to the S.W. at day light off Dundas Island at 5 haul up
for Sebastien during the day fresh gales from SW & clear &
without any difficulty came to anchor at 3 06 clock. In the Canal
Sebastien came off. to night our canoe came in, & say the rest
will come tomorrow & have some skins.

Skitegales

Since laying here the weather foggy but no rain
we have bought 65 skins but with a stone skin
of 2 Ann at 12 06 to day got under weigh
moderate from S.E. & pretty clear at 1 clear
clear of the land moderate from South

Morning begins moderate breezes from S.E. & foggy
at 9 when clear made the Skitegales shore, & at 10 06
crossed the Bar to the south of the rock with
nothing less than quarter of 4 fms. it was the highest
tide however there would have been but 4 or 5 feet at
low water, at 5 06 came to anchor at the usual
place 10 fms good bottom

1834
September
11th
Tue

Yves Roy

At 10 o'clock this forenoon got under weigh with fresh breezes from S.W. & squalls of rain & fog at one o'clock cleared the shoal ground & set H. & L. Studding sail for Pt. Rose. During the afternoon squalls of rain & fog at J. Woody point bore West at 8 o'clock & cloudy N.W.

12th At 12 o'clock last night rounded Pt. Rose to the East of the rock and at day light this morning found ourselves close aboard of real Rock a stiff breeze all the time heading N.W. & W. During the day light & baffling wind but at 9 o'clock came to anchor in the outer Harbour of this place fired a gun & a boat from the Volant came along side from the inner harbour

13th This morning at 10 o'clock weighed anchor & swept & towed up into the inner harbour on turning up, the Volant lay over on the Eastern shore we at the usual place

to 23rd The first part of this time tolerably pleasant but at 2 o'clock it blew very hard in squalls from the Eastward & we went down Fore yard. It hoisted J. & C. & the 22nd commenced hauling the Brig ashore by the Chain & Rich powder made fast ashore during the day stiff breezes in squalls with heavy rain at 11 o'clock grounded & heeled her to Starboard at 5 o'clock she was high & dry found a great quantity of mussels & murex shells on the bottom particularly on the shoe she was in bunches as large as a man's hat & the shoes split about two feet. the Copper soured up to four feet from the stern Post repaired it before the tide flowed at high water heeled her over to Port & in the morning cleaned the other side & at 11 o'clock hauled her off again
NB the Brig is not copper between the keel & the shoes & we found worms in the shoes 5 inches in length

On the Coast of North West America

Junger
Sept 24 to
Oct 7th

During this time the weather has been tolerable. It would have had no gales. we have got the Volanters
furs on board & if it is on the sales for this four or five
days past it has been rising wind & S E &c

At parting gave Accoot a breaker of Rum
as a token of Friendship. he is the cleverest
Indian on the coast and the greatest drunkard

Long by account 147.07 East

Thursday Jan 6th 1825

Commences moderate from the Eastward & clear at 2 P.M. made
three other small Islands bearing S.W. dis 15 leagues
at 7 o'clock with the West point of the Island of Agragan land distant
one & a half miles we ran down to the center of the Island on
the southern part within one mile of the shore at about eight
we heard some person hailing us from shore. bore the 1st topsail to
the mast and lowered down the whale Boat & Eng. Hammewell
& the 2^d officer with the Boats crew pulled in to ascertain who
they were the Boat was met by a canoe with 3 Englishmen
in it who came on board. & they reported they were left ashore
here by an English whaler called the Copernicus Capt
about a year ago. who also left here 3 Kanakas & 3 Sandwich
Island women. the Boat went ashore again & returned

Journal on board Ship Mentor Geo. Newell master

at 12 06 loaded with potatoes. in the morning the Englishman
& Runackers came off again. one of the Islanders had a letter from the
English Captain, which unraveled the business. It appears that about
10 years ago some sailors or ~~men~~ from the Sandwich Islands, formed
a plan for settling this Island & taking these Islanders with them
arrived here & began their settlements, soon after the Spaniards, who
had heard of it came & took them off & carried them to
Guam. & held the Islanders in slavery until the English Capt
took them away and landed them here about a year ago
This Island is one of the Ladrones and is about 15 miles in
circumference in approaching it it presents a delightful & enchan-
ting appearance, it is pretty high & covered from the waters edge
to the top with trees & ~~rubus~~ ^{howly} which I believe are always green
It abounds with ^{howly} hogs, Coco nuts, Bread fruit, Plantain, Sugar Cane
Potatoes, mellons, &c &c & upon the whole I think I should like to live
here better than any place I have seen yet. & I regret my
ship would not permit me to go on shore on so delightful a spot
at 7 06 the Capt. & Hummel in the Whale Boat & the 2^d Mate in
the stern went on shore by the Runackers, that the Englishmen are
deserters from two whale ships. At 11 06 the Boats returned
laden with Coco Nuts & potatoes, Hummel having been washed
away with the surf &c. This 2 men Runackers 4 Women 1 Girl
3 Englishmen

Wednesday 19 Jan^y 1825 & 20th

Begins fresh braces & thick weather which continues
through the night day light cloudy a great number
of fishing boats in sight At 10^{AM} made the Land bearing
North distant 20 miles At 11 made the Grand Lamea
very unexpectedly as the current had set us more than 50 miles
since the last observation - to the Westward

At 1 P.M. about the Grand Lamea bearing South dis 3 miles
weather thick & cloudy a fresh breeze from the Eastward at 1.30^{PM}
took a pilot & continued our course - West.

At 3 P.M. about of the Westernmost Is^l & the Wind light from
the N.E. the Compadon Lamea came off continued our course
and at 8 P.M. came to Anchor to the South of the Main Island
Wishing to see the things the Capt & myself went in the
Compadon Boat as soon after being stowed up in a thing room
being a logshed (the Cabin of this Boat) for about 2 hours
we arrived opposite the Portugis Factory in Macao
immediately a half a dozen Boats shoved a long side

Sea Islands to Canton

with much noise & confusion than I should have thought a hundred sail could have made however we made out to bundle into one with one packing & landed we were immediately met by the allandines for a dollar each to pay for sitting foot on their pinnas after a long voyage - paid it & with our guide went up to the elegant house of Mr. Stuyvesant, came down & passed the night at the Nutcracker Hotel. In the morning took a walk out & at 10 o'clock (Civil account) went on board the Compadres Boat & went on board the Ship previous to going in the Boat however; we paid the allandines 2 more dollars and at starting they gave us a Chin Chin of crackers, Congee and a prayer or two. at 10 reached the ship & got under weigh with the tide and at the 11th dropped anchor at 6 in the evening wind over to the NW & fresh breeze up & at 11 o'clock came too at Lintin at day light this morning found ourselves pretty near the Lascar & Big Nile Captains. & a Country Ship Capt Gore truth been here a long time they being Opium Ships during the day three large Country Ships anchored near us. during the day strong breeze from the NW with rain & cool weather employed taking sandal wood & spices from the Lascar. as she will not go to Nagasack

23 January 1825 Employed taking Skins & Specie from Lascar & some Ebony from a Dutch Ship who had come from Batavia loaded with rice to save Canshaw & Measurement, but was not allowed to Land his goods. Dined on board the Nile Capt Robert Eady, & supper on board the Samerang Capt Gore

The Brig
Pascas

from Canton to Rio de Janeiro and

Boston

1825

Let him who craves enamoured of decay
Cling to his couch & sicken ^{near} life away
Heave his thick breath & shake his palsied head
Ours - the fresh turf & not the feverish bed
While gasp by gasp he faints forth his soul
Ours with one pang one bound escapes control
His corse may ~~not~~ boast its urn & marble cave
And they that loath ~~how~~ his life may gild his grave
Ours are the tears though few sincerely shed
When ocean shrouds & sepulchres ~~our~~ dead

Brig Lascar homeward passage from Canton

Monday 7th March 1825 China Sea

Commences fresh breeze from the NE & thick weather two days previous to this we sailed from Whampoa & anchored off the entrance of the river where we now lay.

At 3 o'clock a portuguese boat came on board who is to go passenger with us at 4 o'clock weighed anchor & made sail

At 5 o'clock the Lascar sailed from which we take a departure

At 4 saw a large schooner & passed her all we could distinguish was her name & listed French colors at 6 made the coast of Salem dis 35 miles - but later correct. During the night passed Salem at day light off the shore of N. dis 5 miles & soon after heaved a large ship appears like a frigate within about 5 miles of us working in and out but later

Thursday 16th

Begins calm & hot weather at 4.00 the sea began springing up we ran up to the entrance of the harbour & anchored at 9 in the morning ran up to the harbour passed 3 forts & opposite the first one we were halted & told to anchor or be would fire into us which we immediately complied with here we were boarded by three boats

Towards Rio de Janeiro 1825

The first one first two soldiers on board of us
the second the health officer & the third one to seal us up
at the third day we were allowed to go on shore with our
guards who escorted us round to an old hut in the navy to report
our selves & then left us to find the way back as we could
which we eventually did & found our selves in the public square
which was then full of people of both sexes some naked
some laying on the ground with a thick wooden plank on
although it was very hot the killed & wounded men were all
round the fountain & the whole city & we entered
the street & were taken to a house & put on board

From Rio de Janeiro towards the S. E.

Sept. 10th

At 8 AM the wind was light & we went to the beach & clean
weather - at 10 AM the wind was light & we went to the beach & clean
foul of a ship & we went to the beach & clean
of our flying & we went to the beach & clean
soon after we went to the beach & clean
when we have been detained of nearly of twenty days
owing to the new custom house regulations
upon the whole the worst place I was ever in this is
neither law nor justice & the whole system & regulations of
the government tend to nothing but robbery the custom house
has no regularity nor system at all & what a man cannot get
done by justice must be done by bribery our freight & passengers
is the only man I know I have seen among them
or god only knows when we should have got clear of them
